WASHINGTON, November 10, 1868.

General Grant declined to-day a public demonstration in his honor tendered by the various Republican associations of this city. This afternoon a committee, consisting of delegates from the Sailors' and Soldiers' Republican Committee, officers of the Boys in Blue, the President of the Central Grant Club, the Mayor of Washington, together with the Alderman and other prominent citizens, called on General Grant by appointment. The object of the visit is stated in the following address by the Mayor:

General Grant: In behalf of the citizens and the Republican organizations of this city, we have called to tender our hearty congratulations on the result of the recent elections and make known to you their wishes, that they be permitted to attest their feeling of happiness and joy by a proper public demonstration, welcoming you as the President elect to the capital of the nation, as they were deprived of that pleasure on your arrival here by a sort of flank movement, by which you stole a march upon our people. All indulge the hope that you will now accede to their request and name the time and place that will be most agreeable to you for such demonstration.

Gen. Grant responded as follows:

"I am glad to meet you all and receive your congratulations, but I hope you will spare me any public demonstration. I live in this city, and like to avoid demonstrations here as elsewhere. With my consent, there cannot be any. I am always ready to meet such gentlemen as may call upon me at my office any time without public display or demonstration. This would be much more agreeable to me, and I hope it will be to you."

The Mayor replied: "We shall certainly study your pleasure in the matter."

Gen. Grant then said:

"I am not unmindful of the feeling intended to be displayed by a public demonstration, and you must take all this for "Granted." (Laughter.)

The company then retired.

There is much disappointment at the refusal of General Grant to accept a public demonstration, as the preliminary arrangements had been made for a grand display.

General Grant was at his office to-day from nine o'clock until three for the performance of official duties, although he was constantly interrupted by visitors, among whom were Speaker Colfax, Judge Kelley, of Pennsylvania, Judge Advocate General Holt, Gens. Emory, Shiras, Hardie, Pelouze and Sutler, the last named of California.

The Young Men's Seymour and Blair Club to-night was re-organized under the name of the National Democratic Club, the members intending to make it a permanent organization.

J. J. Noah was nominated to-day for Supervisor of Internal Revenue, for —— District of Tennessee, the following appointments were made: guagers, Amos A. Cole, Eleventh District, Ohio; Layfayette Clapp and Henry A. Buddington, Ninth District, Michigan; George Housen, Ninth District Ohio; James Harden, John W. Lewis, Elwood Hilsh, Mills P. Lewis and Robert Cochran, Fourth District Kentucky; Plumer Chesley, Seventh District Mich.; Robert M'Chesney, Third District, Mo. Storekeepers, C. J. Queen and H. P. Whitney First District, Illinois: Thomas Foutze Fifth District, Kentucky.; John A. Gill, Twenty-second District, Pennsylvania.

The Dyer Court of Inquiry assembled today in the old Court Martial Rooms near Willard's, where General Fitz John Porter, General McDowell, Surgeon General Hammond, and other famous cases were tried during the war. There were present Generals Thomas, Hancock, Terry, Holt and Dyer, and D. D. Field, counsel for the accused. Judge Holt submitted a report of the Select Committee to the Senate on Gen. Dyer's administration, with accompanying documents. In order to give the members time to examine them, the Court adjourned until Friday. Permission was granted to the parties who suggested this investigation before Congress, to be represented before this Court by counsel, who would aid the Judge Advocate. These parties are extensive manufacturers of arms in Pennsylvania and Ohio, among them Horatio, Ames, Clifford, Arrick, and others.

General Kilpatrick had an interview yesterday with President Johnson, General Grant, and Secretaries Seward, Schofield, Wells and McCulloch, and left here last night for his home in New Jersey, having received an extension of his leave of absence from Chili. He has accepted an invitation to deliver an oration on the occasion of the re-union of the veterans of New Hampshire, on the 8th of January.

Messrs. Wade and Colfax formally adjourned both Houses of Congress to-day until next Monday, and then proceeded to Baltimore, where they will remain until to-morrow morning, when they proceed West.

Mr. Colfax is to be married to Mr. Wade's niece on the 18th instant.

Exhibition at the Maryland Institute—Scuyler Colfax.

(By Telegraph to the Pittsburgh Gazette.)

BALTIMORE, November 10.—The annual exhibition of mechanic arts at the Maryland Institute closed to-night after a successful season of four weeks.

Hon. Schuyler Colfax arrived here this morning. He is the guest of a private citizen. To-night a large number of ladies and gentlemen called on him, but there was no public demonstration. He leaves to-morrow morning.

Sailed.

FORTRESS MONROE, November 10.—The United States flagship Centocook sailed to-day for Havana.

NEW YORK CITY.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 10, 1868.

SOUTHERNERS SEEKING NORTHERN CAPITAL.

The *Times* Charleston special says: Gov. Scott, accompanied by Gen. Sawyer and a deputation of prominent citizens started for New York this morning with the view of advancing the financial interests of the State, to enlist northern capital to secure the speedy completion of the Blue Ridge Railroad, which is the missing link of a continuous railroad line between Charleston and Cincinnati.

WHAT GOVERNOR SCOTT THINKS AND SAYS.

The Governor is much gratified at the quiet order that marked the election throughout the State. After the announcement of the result, a number of prominent Democrats, including Wade Hampton, called in a body on Governor Scott, and declared their determination to accept cheerfully and abide by the decision of the people, to stand by the State Government in its acts, and to use all their influence in inducing the people throughout the State to do likewise. They expressed their conviction that the future prosperity of the State depended upon a unanimous and hearty support of the Government, and reliance upon the ballot-box alone in the future, as a remedy for the evils of unwise legislation.

The Governor expressed the great pleasure their visit had given him, and his belief that this action on their part would do more to restore unanimity among our people and place the credit of the State where it deserves to be than any political expression could possibly effect.

REPORTED FILIBUSTERING EXPEDITION.

The *World* has additional accounts of the filibustering expedition alleged to be fitting out in the United States for Cuba. It says 2,500 men go from New York, 800 from Boston, and 3,000 from New Orleans, and a detachment from Mobile. The leaders are said to be General Harry Hayes, and C. F. Henningsen, Col. Geo. W. Gibbons, or Col. Jas. Kerrigan. Recruiting offices are reported to have been opened and forty-seven commissions for officers issued. The whole story wears the look of a canard.

MAYOR HOFFMAN SPEAKS HIS PIECE.

In Mayor Hoffman's remarks at Albany last evening, he observed that he would say to his Republican friends that inasmuch as they had been defeated by about 30,000 majority, it would be best for them to gracefully accept the result as had been the custom of the Democrats for many times in the past.

CASE OF COL. TREDWELL.

The United States Grand Jury brought in four more indictments against persons concerned in the naturalization frauds. The examination of the case of Colonel Tredwell continues at Jersey City. The testimony for the prosecution has closed. A witness to-day testified he heard the prisoner say he would carry from five hundred to eight hundred votes against Halsey, in the Fifth Congressional district. The defence offered no evidence. The arguments proceeded until the close of the Court.

WRIT OF QUO WARRANTO APPLIED FOR.

The Democrats of the Fourth New Jersey District have applied for a writ of quo warranto to declare the election in Boonton township void, alleging that one of the Judges carried the ballot box home and that it was afterwards in the possession of the Republican county clerk and that he stuffed it with split tickets. The rejection of this township would elect Rafferty over Hill.

A PROTEST OFFERED.

At a meeting of the Board of Supervisors of New York to-day a protest was received from Frederick Zimmer against the counting of the returns from several precincts of the Sixth Assembly District, on the ground that one of the inspectors surreptitiously substituted fifty votes bearing another name for those bearing his, Zimmer's name, and that other frauds were perpetrated by which he, Zimmer, lost one hundred and twenty votes. The protest was laid over for future consideration.

CAUSE OF THE LATE RAILROAD ACCIDENT.

The accident on the Harlem Railroad last evening was not caused by an explosion. The train was thrown from the track by a tie purposely placed across it, and the engine, tender and express car nearly demolished. The engineer, fireman and a clerk of the company were injured, but not seriously. No passengers were hurt. Loss to the railroad $30,000 to 40,000.

ACTION OF FRENCH REPUBLICANS.

At a meeting of the French Radical Republican club of Newark last night the following was unanimously adopted:

Resolved, That it is with the deepest feeling we here and now tender our warmest congratulations to the people of Iowa and Minnesota for their sense and probity in having admitted impartial suffrage by their sovereign ballots on the memorable 3d of this month.

MEETING OF THE TRUSTEES OF ANTIETAM AND GETTYSBURG CEMETERIES.

At the request of several of the trustees of Antietam Cemetery, who are trustees also of Gettysburg Cemetery, the President, Mr. Jay, has called a meeting of the Board at the Ebbert Hotel, at Washington, on the evening of the 9th of December, when it is expected the disposal of the remains of the Confederate dead will be finally determined.

RAILROAD ACCIDENT.

Twelve coal laden cars, on the Morris & Essex Railroad, were thrown from the track on Sunday evening by the breaking of an axle and demolished. A brakeman was slightly injured.

INDEFINITELY POSTPONED.

The Kentucky Bourbon case and the similar one of Blairsdell and Eckle were up before Judge Blatchford to-day and postponed indefinitely to await further orders from the Attorney General.

A YOUTHFUL BIGAMIST SENTENCED.

Albert A. Whitehead, aged twenty, has been sentenced to the State Prison for three years for marrying two young ladies. He appears to have engaged himself to two others.

DECLINES BEING A CANDIDATE FOR U. S. SENATOR.

It is stated on good authority that Hon. John A. Griswold will not consent to have his name used as a candidate for United States Senator.

ARRIVAL OF ADMIRAL FARRAGUT.

Admiral Farragut came quietly up to the city this morning, and maintains a strict privacy. The Franklin remains in the lower Bay.

GOV. GEARY NOT A CANDIDATE FOR U. S. SENATOR.

Gov. Geary, of Peunsylvania, has written a letter that he is not a candidate for U. S. Senator.

SAILED FOR MEXICO.

General Rosecrans and Longstreet sailed to-day for Mexico.

TENNESSEE.

Governor Brownlow's Message—He Makes Sundry Recommendations.

[By Telegraph to the Pittsburgh Gazette.]

NASHVILLE, November 10.—Gov. Brownlow's message was read in the Senate today. After congratulating the country upon the election of Grant and Colfax, and the bountiful harvest which rewarded the husbandman, he recommends the sale of the six railroads now in the hands of the Receivers appointed by him on behalf of the State, and that the proceeds be applied to the reduction of the State debt. He also recommends that no further aid be given to railroads, except three which he mentions in which the State has a large interest that it would lose if aid should be denied them. He recommends that measures be adopted to wind up the Bank of Tennessee forthwith.

In regard to the extension of the franchise, he suggests that there should be a discrimination exercised concerning those who were in rebellion. They are not all alike culpable for the past, nor untrustworthy for the future: for those who were involuntarily driven into the service of rebellion and who, since its utter failure, have given evidence that they accept the result in good faith; that they are good citizens, quiet and law abiding; that they have strictly observed their parole; that they will not use political power to degrade those whom the war has emancipated and invested with the rights of citizens—for disfranchised persons of this description the franchise might be safely, and therefore wisely extended. The extension should, however, be applied with suitable guards and checks, that advantage could not be taken of its liberality to the danger and harm of the State.

The other class who still remain hostile to the Government, he thinks, should remain disfranchised for an indefinite period.

He also recommends an increase of the salaries of the Governor and Judicary, and makes various recommendations relative to the interests of the hospital, penitentiary &c.

FLORIDA.

More of the Reed-Gleason Difficulty—Attempt to Shoot Lieutentant Governor Gleason—The Matter to be Decided in the Supreme Court—Thanksgiving Day.

[By Telegraph to the Pittsburgh Gazette.]

TALLAHASSEE, November 10.—Lieutenant Governor Gleason and Secretary Alden occupy rooms at the City Hotel, opposite the Capitol. Yesterday afternoon, while in the hotel, the Adjutant General of the State demanded a paper from Secretary Alden relative to his appointment as Adjutant, which Olden refused to deliver. The Adjutant General then presented a pistol at Mr. Alden. Chief Justice Randall, who was present, interfered and succeeded in arresting the difficulty. To-day, on the complaint of Secretary Alden, the Adjutant General was bound over in $500 to keep the peace. Lieut. Gov. Gleason's party claim that Gov. Reed caused the destruction of arms lately thrown from the Railroad to prevent them from being used to aid in his conviction, while the other side say Gleason's party did it to add to Reed's embarrassment.

J. C. Gibbs, a colored man, is Governor Reed's Secretary of State. Gibbs was appointed in the first instance by Governor Reed when he was forming his Cabinet, and was confirmed by the Senate, but afterwards set aside on account of a mistake in his name and Alden appointed. With the exception of Secretary of State, Governor Reed's Cabinet is unchanged.

Governor Reed has issued a proclamation recommending the 26th instant as a day of thanksgiving and prayer.

The impeachment case was presented to the Supreme Court to-day for its opinion.

PHILADELPHIA.

Remains of F. J. Fronbat Arrive—Death of Dr. Lee—Bateman's French Opera Troupe Not a Success—Stock and Money Markets.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, November 10.—The remains of Mr. F. J. Fronbat, who died recently in Paris, have arrived here. He was a prominent lawyer and writer upon legal matters.

Dr. Lee, alms-house physician, and formerly a professor in the University of Pennsylvania, died yesterday.

Bateman's new French Opera Troupe is not so successful as was expected. Barbe Bleue does not take.

The money and stock markets continue to gather quiescence. All of our journals advise the Secretary of the Treasury to relieve the markets by the issue of greenbacks.

NEW ORLEANS.

Odd Fellows' Procession—Dedication of a New Hall—Bonded Warehouse Established.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, November 10.—The Odd Fellows were out in procession in strong force to-day, the occasion being the dedication of the new Hall of the Order. The ceremonies were conducted by the Grand Officers of the body. There was a fine display notwithstanding the unpleasant weather.

An export bonded warehouse has been established here.

The Canadian Dominion—Struggle for the Repeal Useless.

[By Telegraph to the Pittsburgh Gazette.]

HALIFAX, November 10.—Hon. Joseph Howe publishes another letter in which he announces that he has reached the conclusion that it is useless to continue the struggle for the repeal. He also says he is in correspondence with the Dominion Government, but omits to state the character of the correspondence.

The letter creates great excitement here. The unionists predict a collapse in the repeal movement, while the anti-unionists denounce Howe in severe terms.

Damages.

(By Telegraph to the Pittsburgh Gazette.)

BOSTON, November 10.—The town of Rockport, Mass., has been mulcted in the sum of twelve thousand dollars for personal damages sustained by J. E. Hatwell and Adelia Babson, by a defect in the highway.

Alleged Murderer Held to Bail.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 10.—The man John Reilly arrested, on suspicion of murdering his wife on Sunday night, has been held to bail, he protests she fell while drunk, striking her head against a table.

Gov. Hoffman at Albany.

(By Telegraph to the Pittsburgh Gazette.)

ALBANY, November 10.—The arrival of Hon. John F. Hoffman and wife at Congress Hall was made the occasion of a complimentary serenade to him last evening, by the Jackson Guards.

ENGLAND.

LONDON, November 10.—The *Times* has an editorial article giving the present state of the questions at issue between the United States and Great Britain.

A mixed commission, consisting of two members from each nation, will be appointed to adjudge all questions arising since 1853, the date of the last Commission.

England's responsibility in the matter of the Alabama claims will be referred to Prussia for arbitration.

If the decision be in favor of America, the Commission will then investigate the claims.

America has withdrawn the question of the recognition of the Southern States by Great Britain during the war.

The San Juan business will be referred to the President of Switzerland for arbitration.

The Lord Mayor of London gave a banquet at Guild Hall last night. Among the guests were Right Hon. Benj. D'Israeli and Reverdy Johnson. In the course of his reply to a toast Mr. Johnson said: I have been greatly criticised for the manner in which I have received and offered civilities while in this country, but such strictures on my conduct have not affected the negotiations which are in progress. However dissatisfied the people here or at home may be, they will find there is no ground for such a feeling. The questions at issue between my government and that of Her Majesty are now settled without touching the honor of either nation. If diplomatic negotiations in the future are carried on in the same spirit, war between England and the United States will be impossible.

Mr. D'Israeli made an able speech. Alluding to the subject introduced by Mr. Johnson, he said the removal of our difficulties with the United States gives good ground for hope that no future misconception may occur. He reviewed the state of affairs in Europe, and admitted that the superficial aspect was threatening, but declared that the Ministry could see no apparent pretext for an outbreak of war.

The Marquis of Hastings died to-day, aged 26 years.

LONDON, November 10.—There is the highest reason to believe that the statement of the Convention for the settlement of the Alabama claims, published in the *Times* this morning, is incorrect.

The fourth article of the Convention, to which the *Times* particularly refers, reads in fact as follows:

The Commissioners shall have power to adjudicate upon the class of claims referred to in the official correspondence between the two governments known as the Alabama claims; but before any of such claims are taken into consideration by them the two high contracting parties, shall fix upon some sovereign or head of a friendly state as an arbitrator in respect of such claims, to whom such class of claims shall be referred in case the Commissioners shall be unable to come to an amicable decision upon the same.

This opens up every question involved in these claims, whether that of the right of the English Government to acknowledge the South as belligerents or any other.

The *Times* speaks of distinguished publicists whose judgment will aid the King of Prussia. These are doubtless Gessnier and Heffner, both leading writers on international law and engaged in the Berlin administration, the former in the foreign office, who have, since the war, advocated the American views of the pending questions. They concurred, at the time, in pronouncing the seizure of Mason and Slidell justifiable, and denounce the selfishness of the British principles of neutrality.

SPAIN.

MADRID, November 10.—The *Correspondencia* says there is reason to expect that the Spanish Government will, at an early day, conclude treaties of peace with Chili and Peru. It attributes the happy result to the mediation of the United States and to the sympathy aroused in Spain in consequence of the desolation of Peru and Chili by the recent earthquakes.

GERMANY.

BREMEN, November 10.—The American ship, James F. Patten, Captain Percy, from Akaba, was driven ashore this evening at the mouth of the Weser. The Captain, Mate and nine of the crew are still on board of the wreck and alive. A boat has gone to rescue them. The remainder of the crew are safe on shore.

ST. LOUIS.

Arrest of a Bank Robber and Murderer—Financial Condition of St. Louis—The Weather.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, November 10—James St. Clair, one of the four men who were engaged in the robbery of the Alton, Illinois, bank and the murder of the private watchman, M. Filley, a few nights ago, was arrested at Kansas City, Mo., last Friday and brought here by Marshal Keck, of Kansas City, and Detective Wright, who went from Alton to identify the prisoner. Another man in company with St. Clair, was arrested at the same time, but it is not known whether he was concerned in the robbery. About three hundred dollars worth of nickels and revenue stamps, being a part of eight hundred dollars worth taken from the bank, was found on St. Clair. It is thought that this arrest will lead to the capture of the remainder of the robbers and murderers.

The annual message of Mayor Thomas, presented to the City Council this evening, shows that the value of property, subject to State and county taxes, in the city and county of St. Louis, is $144,537,328; increase over last year $8,121,200; total taxes $3,419,949. The valuation of taxable property in the city is $205,000,000, on which taxes were collected to the amount of $1,243,755. The total revenue of the city was $18,145,513. The bonded debt of the city is $12,235,500.

The Police Department of the city cost during the year $30,000; the Fire Department $152,000; Health Department $220,000; Street Improvement $180,000; Street Cleaning $10,000. The floating debt of the city on October 12th was $616,934. The amount so far expended on the new water works is $1,812,579.

The weather has turned quite cold since the rain of Sunday night and yesterday, the mercury sinking from seventy-five to forty-five degrees at 3 p. m. At nine o'clock this morning the thermometer marked thirty-five degrees.

MEMPHIS.

Another Scare in Tipton County, Tenn.—Consternation Among the Whites—Women and Children Fleeing.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, November 10.—A dispatch was received by General Granger last night from R. P. Price, Commissioner of Registration in Mason's district, Tipton county, stating that the greatest excitement existed there in consequence of the report that Gen. Smith, the defeated candidate for Congress, was coming there with a large body of armed negroes to take depositions for the purpose of contesting the election, and asking for troops to preserve order. This morning a dispatch was received from Sheriff Slaughter stating that about one thousand armed negroes, principally from Fayette county, had arrived there and the greatest apprehensions were felt for the security of the whites. Many women and children had left on the train in consequenee. Since noon it is impossible to communicate by telegraph with that point, and it is believed that the operator has been driven away. General Granger dispatched fifty men of the 25th infantry, under three officers by a special train to-night for the purpose of preserving order.

Bank Closes its Doors—A Panic Ensues.

[By Telegraph to the Pittsburgh Gazette.]

ST. JOHNS, N. B. November 10.—Quite a panic was occasioned here to-day by the reported failure of the Commercial Bank. The stock sold yesterday at sixteen dollars for one hundred dollar shares, and this evening the paper was generally refused. About noon the bank closed its doors. Other banks are deliberating whether they will come to its assistance.

Charleston Municipal Election.

[By Telegraph to the Pittsburgh Gazette.]

CHARLESTON, Nov. 10.—The municipal election took place to-day and was attended with much excitement. Chancellor Lessene was the candidate of the citizens party for Mayor, and Gilbert Pillsbury of the Republican party. The vote is very close, but will not be counted till morning.

Locomotive Explosion—Engineer and Fireman Killed.

[By Telegraph to the Pittsburgh Gazette.]

HOLLIDAYSBURG, PA., November 10.—Yesterday a locomotive exploded at Duncansville, killing the engineer, Robert Patterson, and the fireman, Philip Davis.

Southern Road to be Finished.

EDUCATIONAL.

Meeting of Central Board—Music for Colored School—Arrangements for the Erection of High School Building—Additional Teachers Granted to Lawrenceville—Principal for Colored School Elected—Text Books on Gymnastics and Drawing Cards Adopted, &c.

The Central Board of Education met Tuesday afternoon, Nov. 9th, 1868.

Present—Messrs. Anderson, Covert, Craig, Getty, Harrison, Mays, Sergeant, Shaw and Wilson.

Mr. Wilson was appointed President *pro tem.*

The minutes of the preceding meeting were read and approved.

The monthly reports of the Principal of the High School, City Superintendent and Secretary were read and ordered to be filed.

A communication from J. B. Taylor, Principal of the Colored School, requesting the Board to take into consideration the propriety of employing a Music Teacher for the Colored School. Read and referred to Committee on Music.

Mr. Craig, from the Committee on Music, presented a report that the teacher of the Middle District had not succeeded to their satisfaction.

Mr. Harrison moved to refer the whole matter to the Committee on Music, with power to act.

Mr. Getty moved to postpone action for one month, which was decided in the affirmative.

Mr. Covert, from the Committee on High School, reported in favor of making arrangements for the erection of a suitable High School Building, to be erected on the Basin lot.

On motion of Mr. Craig the report was accepted.

On motion of Mr. Harrison, a Committee of five were appointed to procure designs for a building.

The Chair appointed Messrs. Harrison, Aiken, Mays, Taylor and Craig.

Mr. Covert presented a communication from the Lawrenceville School District, stating, by a misunderstanding, they had employed sixteen teachers of which but fourteen had been paid, and requesting that two additional teachers be granted, one in the Grammar Department and one in the Primary Department.

On motion of Mr. Mays it was referred to the Committee on Teachers and Salaries.

Mr. Mays, from the Committee on Colored School, reported that Mr. J. B. Taylor, Principal of the Colored School, had resigned, said resignation to take effect from the 1st December; that the Committee had received applications from a number of teachers for the vacancy, and had unanimously agreed to recommend Daniel W. Atwood.

On motion of Mr. Shaw, the report of the Committee was accepted, and Daniel W. Atwood elected Principal of the Colored School from the first of December.

On motion of Mr. Harrison it was

Resolved, That Smart's Manual of free Gymnastics and dumb bell exercises, together with Coe's drawing cards (large size) be adopted for use in the city schools.

Mr. Craig, from the Committee on Teachers' Salaries, reported in favor of authorizing the employment of one additional teacher in the Grammar Department and one additional in the Primary Department of the Lawrenceville Schools, and also that the teachers now employed, who were engaged without the authority of this board, be paid from the date of their employment.

On motion of Mr. Anderson the report was adopted.

The following bills were ordered to be paid:

Baptist Book Depository, printing	$8,00
Tate, Munden & Tate, plumbing	1,75

On motion adjourned.

Allegheny Board of Controllers.

A regular monthly meeting of the Board of School Controllers of Allegheny City was held last evening.

The meeting was called to order by the President, Rev. Clarke, and opened with prayer by Rev. King.

The roll was called by Secretary Francis, when the following members answered to their names:

Messrs. John Brown, Jr., John K. Brown, Boyle, Borland, Chadwick, Dunlap, Eaton, Francis, Jackson, King, Kollock, Loomis, Lea, Lockhart, Moul, Mussler, M'Roberts, M'Cance, M'Connell, Oakley, Parke, Sutton, Swift, Tremble, Walton, Young, and President Clarke.

The minutes of the preceding meeting were read and approved.

Mr. King submitted the report of the Local Board of the Second ward, and applied for two additional teachers in said ward.

The application was granted.

The reports of the several remaining wards were submitted and received.

The Third ward Local Board asked the confirmation of the appointment of Mrs. Tite as a teacher in the Night School *vice* Miss Hull. The appointment was confirmed.

The Sixth ward Board asked that Miss Wilson be appointted a teacher in the Night School in said ward.

The Chair decided that the average attendance would not warrant the appointment of an additional teacher under the rules regulating Night Schools.

Mr. Loomis submitted the report of the Committee on Rules and Discipline, recording several important charges. The report was accepted and adopted.

Mr. Colloch offered an additional Rule, allowing teachers one half day in each term for visiting other schools. The rule was not adopted.

The Fourth ward Board applied for an additional teacher. The application was granted.

REPORT OF THE FINANCE COMMITTEE.

Mr. Brown presented the following report of the Finance Committee:

GENTLEMEN: Your Committee on Finance, to whom was referred the resolution relative to adjusting the difficulties concerning the tax duplicates in the Eighth ward, respectfully report that we have given the subject due deliberation, and in order to settle the difficulties we offer the following resolution:

Resolved, That David Crow be, and he is hereby appointed to collect the unpaid educational taxes remaining on the duplicate of the Eighth ward, and that he is hereby instructed to collect two mills additional from all persons of whom he received taxes levied at the rate of eight mills on the dollar.

We also had under consideration the subject of collecting the delinquent taxes of 1868, and we are of opinion that it is desirable for the ward boards to make the appointment of collectors for that purpose. We therefore offer the following:

Resolved, That the local boards be and they are hereby authorized to appoint the collectors for collecting the delinquent educational taxes remaining on the duplicates of 1868.

We also report that there has never been a final settlement made with the collectors for the duplicates of 1866.

We had before us the lists of unpaid taxes, and believing that it is impracticable to collect them any closen, and deeming it desirable to have the accounts closed, we submit for your consideration the following resolution:

Resolved, That the Secretary be and he is hereby authorized to credit the several collectors named below with the sums set opposite their names, being the amount of unpaid taxes on the duplicates of 1866, from which the collectors ask to be exonerated:

Wm. Thompson, First ward	$427 68
John Ramsey, Second ward	819 21
Robert Dilworth, Third ward	552 26
James Graham, Fourth ward	873 52

The report was received and adopted.

The Secretary read sundry bills, which were received and ordered to be paid.

The pay roll of the First ward night schools was submitted, and on motion it was referred to the Committee on Night Schools, with power to act.

Mr. King moved that a Committee of one from each ward be appointed to enquire into the propriety of appointing a City Superintendent, to report at the next regular meeting.

The motion was adopted, and the Chair appointed Messrs. King, Swift, Kolloch, Lea, Trimble, McConnell and Borland.

On motion of Mr. Swift, the report of the Committee on Rules and Discipline was referred to the Committee on Printing.

The local board of the Eighth ward asked that the current expenses be paid out of the general fund.

The matter was referred to the Committee on Finance.

On motion, adjourned.

MANUFACTURES.

—Glire's coffee mills, in Boston, turn out 2,000 pounds a day.

—Large quantities of grindstones are made at Massillon, Ohio.

—A large wire mill ninety by fifty feet is being put up at Seymour, Conn.

—A large new tack factory, 100 by 35 feet, is being built in Massachusetts.

—Beloit, Wisconsin, has the only manufactory of paper making machinery in the West.

—A store house 90 feet long is being added to Brown's Sugar Works at Portland, Maine.

—The Rome, New York, Iron and Steel Bloom Company will start its mill in about a month.

—Boston has an iron safe manufactory which keeps twenty-five hands constantly employed.

—A woolen mill at Lansing, Iowa, was burned on the 28th ult. Loss $30,000; insurance $3,000.

—Fifteen million bricks have been made since last April by four brick-makers in Springfield, Mass.

—On the 30th of October part of Cob & Drew's tack factory at Plymouth, Mass., was destroyed by fire.

—A new bobbin and shuttle factory, 90 by 40 feet and two stories high is being erected at Woonsocket, R. I.

—Cleveland has a factory which makes large quantities of whips, besides about 400 dozen pairs of gloves each year.

—The Andover Mill, at Andover, Ill., was burned down on the last day of October. Loss $20,000; no insurance.

—One Boston firm employs eighteen hands and uses up 120 tons of strawboard per month in making paper boxes.

—Mr. W. E. Sarvis, of Boston, employs twenty hands at currying leather and turns out about five hundred sides a week.

—The Lancaster Mills, at Clinton, Mass., are being enlarged by the addition of a new building 200 feet by 60, and six stories high.

—The Dolphin works at Patterson, N. J., are now running 12,000 spindles and 50 looms on jute yarn for bagging and carpeting.

—The cotton mill at Macon, Ga., is running full time, employing 350 hands, and consuming $12,000 worth of raw material monthly.

—The Welch Manufacturing Company at Forestville, Conn., is running its factory night and day and turning out 10,000 clocks per week.

—The New England Felt Roof Company has recently made more than four acres of roofing for three large cotton factories in New England.

—Roth's woolen mill at New Platz Landing, N. Y., was burned down the week before last. The loss was $8,500, and the insurance $6,000.

—The Fulton Iron Works of New York City are running full time now, making engines and boilers and employing nearly four hundred hands.

—The woolen mill at Norway, Maine, is running day and night, making water proof cloth. It will continue doing double work all through the winter.

—The well known Lorillards, of New York, are building an establishment at Louisville for re-drying tobacco. It will employ about 100 people.

—60 hands are employed in making cigars at Westfield, Maine, where a new factory for making the Jonval turbine water wheels has just been started.

—The Royal River Manufacturing Company, at Yarmouth, Maine, employs sixty hands, and in October made 200 bales of seamless bags and 75 bales of yarn.

—The Portland Marble and Freestone Company is a new stone cutting association in Maine, which has five gangs of saws for cutting stone, almost ready for use.

—At Lewiston, Maine, there is a factory employing 14 hands, which turns out about 3,000 square feet of machine card clothing, besides a quantity of leather belting.

—At Laconia, N. H., one factory makes 15,000 spring needles, for knitting looms, per day, and another establishment manufactures 125,000 paper boxes per annum.

—House & Fulton's flouring mill, at Waterford, N. Y., was destroyed by fire on the 28th ult., involving a loss of $55,000, $33,500 of which is covered by insurance.

—Solomon's hat factory at South Norwalk, Connecticut, was illuminated one night, week before last, during a political demonstration, and it took fire and was burned down.

—A large paper mill is being built at New Millford, Connecticut, and the works of the Eagle Scythe Company at Riverton, in the same State, are being greatly enlarged and improved.

—Turnbull & Brother had their large steam saw mill, at Moskegon, Michigan, destroyed by fire week before last. Their loss was $30,000, of which but $6,000 is covered by insurance.

—Bangor, Michigan, must be a thriving village. It has a flouring mill, grist mill, woolen mill, saw mill, sash and blind factory and planing mill, all the property of one man, a Mr. J. H. Wyman.

—On the 30th of October a fire broke out in Westerley, Rhode Island, which destroyed Maxson & Co.'s planing mill and Well's tannery, involving a loss of about $23,000, on which there was but little insurance.

—The last week in October seems to have been a destructive one among manufactories all over the country. At Nashville, Tenn., the Rock City Flouring Mill was burned down. The loss was $38,000, and the insurance but $6,000.

—The Waterbury and Detroit Copper Company employ sixty hands at their works in Detroit which can turn out about one hundred tons of copper per month. The same company have works nearly the same size at Houghton, Michigan.

—Some Philadelphians are putting up a large lock factory, at Lower Stamford, in Connecticut. It will comprise a main building 278 by 50 feet and two ells each 120 by 35 feet, and three stories high. The works will cover one and a quarter acres of ground.

—Joseph L. Ross, of Boston, has the oldest manufactory of school furniture in this country. He sells and ships goods to all parts of the United States, England, Russia, Sweden, etc. He employs from sixty to eighty operatives.

—The Farmer's Manufacturing Company has just organized at Auburn, N. Y., with a capital of $100.000, which will be used in the manufacture of a recently invented machine for the sharpening of the sections of reapers and mowers.

—The pearl and corn starch factory of Peal, Mellon and Wishmeyer, in Indianapolis, was burned down week before last. It was a new three-story building, containing some valuable machinery. The owners estimate their loss at $40,000, and have $17,000 insurance.

—The Eagle Malleable Iron Company is a new establishment, in Pittsburgh, which manufactures saddlers hardware and carriage castings. Their foundry has a capacity of two tons of light work per day and two hundred thousand pounds can be annealed in their annealing rooms at a single heat.

—At Youngstown, Ohio, the Himrod Furnace Company employs 100 hands and turns out about 80 tons of pig iron per day. The Mahoning Iron Works, at the same place, consume yearly about two and a half million bushels of coal, and turn out daily about 15 tons of nails and 50 tons of other merchantable iron.

—Pickens and Washburne have the largest and best dry-house in Boston, says a Boston paper. It is built of brick, fireproof, five stories high, and has a capacity of 100,000 feet of lumber. This firm manufactures mouldings of various kinds, consuming 1,000,000 feet of lumber every year, and employs thirty hands.

—Thirteen different firms are now engaged in the manufacture of silk in Patterson, New Jersey, employing about three thousand persons and consuming from six thousand to eight thousand pounds of raw silk per week, and manufacture tram, organzine and numerous sorts of sewing silk. There are also six silk weaving firms in Patterson, who make dress goods, ribbons, trimmings etc.

—The recently elected Governor Claflin, of Massachusetts, is junior partner in the firm of Wheeler & Claflin, who have recently started a large tannery at Caroga, N. Y., which is capable of turning out 80,000 sides of sole leather per annum. The same firm is now building in the same place another tannery which is to have facilities for producing 100,000 sides of upper leather per year, and which will probably be completed early in 1870.

—New England is evidently trying to compete with Pittsburgh in one of our specialties. One firm in Cambridgeport, Mass., engaged in the manufacture of plain and silvered glassware, is putting up a new workshop, three stories high and 70 by 40 feet, besides a new brick building 70 by 70 feet, containing a ten pot furnace. These great improvements will nearly treble their capacity, and when in full operation will give employment to nearly 200 hands.

Ladies' Furs.

All furs of lower grade than sable are cheaper this season than last. Mink has fallen twenty-five per cent. Reliable furriers say that they are selling ready made sets of mink for less money than the skins cost them.

Small collars, boas and sacques are the fashionable choice in shape. Two styles of collars are shown. The most dressy shape is the Imperial collarine, very small, only eight inches deep behind, with short, square front trimmed with the tails of the animals. Ladies who consider comfort the first essential, prefer the new pelerine cape, slightly pointed back and front, and sufficiently large to afford protection to the chest and shoulders. The half cape with long, square ends, is entirely out of fashion. The Princesse boa, introduced this season, is a graceful style, short in front, and shaped to fit the neck. A short, straight boa, tied at the throat or fastened by passing the head of the animal through a loop, is in favor with young ladies but the long Bertha boa is more *distingue*.

The fur cloaks are gracefully shaped sacques, made thirty-four inches long, with coat sleeves, standing collars and pockets. The large, clumsy capes are not in keeping with the present style of street dress, and have entirely disappeared. Sacques are more comfortable, as they fit closer to the figure.

Muffs are smaller even than last season. The round shape is preferred for full dress, the flat pocket muff, suspended by a cord around the neck, for shopping and skating. Three, four and sometimes five dark stripes adorn mink muffs. The ends are trimmed with a single tassel of brown bullion attached to a diamond shaped head, or with the tails of the animal pendant from a passemeterie acorn. Changeable silk linings are not used. Snuff brown satin, or Turkish serge of the shade of the fur, are in better taste and more durable. Sables have a soft lining of eider down.—*Harper's Bazar.*

Mr. Webster's Prophecy.

At the presentation of the Webster toast to the New England Society last evening, Mr. Aspinwall made a very interesting statement. He said said that Mr. Webster, some twenty-five years ago, remarking upon the importance of a commercial port on the Pacific, observed:

"You who have studied geography with care must have observed that San Francisco is the only safe and capacious harbor on the Pacific coast between the Columbia river and the Equador, and to my mind no event in the future is more certain than the existence on the Western slope of this continent of a great Anglo-Saxon empire, of which the Bay of San Francisco will be the outlet to the Pacific; and I consider a degree of territory, more or less, on the North, as not to be weighed against the advantages of securing that harbor, and through it the future empire to our country. Whether in connection with the United States or an independent nation, that empire should exist, I shall not live to see; some of you may; and turning to me he added, you are the youngest man at this table, educate your sons for San Francisco, for it will one day become one of the great centres of the commerce of the world.

This remark was made before the cry of 54.40 had been raised, before California was thought of as part of our possessions, and when San Francisco was but a geographical name. It was a singular instance of Mr. Webster's foresight and political sagacity.

Financial Matters in New York.

Gold Closed at 134¼@134⅝.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 10, 1868.

MONEY AND GOLD.

Money easier and a drug at 7 per cent. on call with some transactions at 6 per cent. Among the lenders were some parties closely identified with the great bear combination, which have let out over five millions since Saturday. The same parties are, however extending their lines by borrowing on time and there are some indications of another locking up of greenbacks when the public do not expect it. Sterling firmer, at 9¼@9⅝. Gold unsettled and lower; opened at 135⅜; advanced to 135¾, and fell to 134¼@134⅝ at the close. The bull clique, who had been manipulating gold, realized heavily this morning.

GOVERNMENTS.

Governments feverish and unsettled, closing steady at a decline. The operations are mainly on the bull side, and considerable amounts are held by parties who believed the Secretary would take them off their hands at high prices. Coupons of 1881, 113¼@113½; do. STOCKS

The stock market has been agitated by unfavorable rumors of bank failures at the West, but closes weak and unsettled at a decline of 1@4 per cent on the morning quotations:

RIVER NEWS.

The river rose slowly all day yesterday, and was still rising last evening, with five feet six inches in the channel by the Monongahela marks. We should not be surprised to find seven or even eight this morning, as it rained nearly all day, and telegrams reported five feet, and rising, and raining at Oil City.

Business was less active at the levee yesterday, owing to the inclement condition of the weather, and shipments were comparatively light.

The Wild Duck, and Leonidas, from St. Louis, arrived, and the Glasgow, from Cincinnati, and Kate Putnam, from St. Louis, were expected in last evening. Both of the last named boats laid a few miles below the city yesterday, waiting for the river to rise sufficiently to let them up.

We regret to learn that Capt. Joe. Brown is confined to his room seriously ill.

Capt. Hugh Campbell, of the Mary Davage, was in the city yesterday. The Davage is en route for this point, and will arrive here about the latter end of the week.

The staunch Ida Rees, Capt. Stubblefield, will positively take her departure for New Orleans to-day, and passengers and shippers should bear this in mind.

The Grey Eagle, Capt. C. L. Brennan, is the regular packet for Parkersburg to-day, leaving promptly at noon.

Captain Dean has changed the destination of the Messenger, from New Orleans to St. Louis and the Upper Mississippi.

The Armenia, Capt. A. C. McCallum, is now in turn for St. Louis, and will be the first boat out for that polut. It is expected that she will be ready to leave to-morrow evening.

The Bellevernon, Capt. J. J. Darragh, is the regular packet for Cincinnati, Louisville and Evansville to-morrow, leaving at four P. M. As we noticed yesterday, Darragh, contemplates keeping the Bellevernon regularly in the Evansville packet trade, and shippers should do all in their power to sustain him.

The Armadillo, Capt. D. H. Swaney, is filling up steadily for New Orleans, as is also the Arkansas, Capt. A. H. Shaw.

—The New York and Lorena arrived at Cincinnati on Sunday.

—The Louisville Marine Association has adopted the St. Louis tariff on freights south from Cairo.

—Stephen Morse, Esq., of Cincinnati, has sold the Arkansas river steamer Hesper, to Captain James Lee, formerly of the Natrona, for $4,500.

—The Mary Davage passed Louisville on Saturday en route for Pittsburgh, and the towboat Sam Roberts arrived there the same day with a tow of coal.

—The steamer Guidon was sold at St. Leuis the other day to Capt. J. B. Davis for $7,500. She will ply between the mouth White river and Pine Bluff.

—At St. Louis, on Saturday, the Kate Hart was sold by the United States Marshal for $2,600, to Brady & Gormley. The claims against her amounted to nearly that amount.

—The steamer Helena, sunk forty miles below Sioux City, in the Missouri river, settled two feet deeper on Thursday. The decks will have to be cut to save any more cargo; 150 barrels and 127 bags of flour have already been saved.

—The Evansville *Journal* says: Captain F. H. Humphreys has sold his mammoth wharfboat, which will be taken to some point below, and has taken an interest in the wharfboat of E. W. Patrick & Co., to which Com. Humphreys has transferred his broad pennant. The new firm is Humphrey, Patrick & Co., and is composed of first-class material.

—We clip the following from the Cincinnati *Enquirer* of Monday; Captain Wm. Shaw, who has made Western Virginia his home for two or three years past, with his family, arrived on the Edinburg yesterday, *en route* for New Orleans. He is well known in Southern waters, having commanded formerly the famous Southern Belle, in the Vicksburg and New Orleans trade, and was for a time proprietor of the wharf-boat at Lake Providence. He returns to his plantation, twenty miles below the mouth of Red River.

—The Wild Wagoner met with an accident last week, near Fairview Landing, about twenty-five miles below Vicksburg, going down. She was just behind the steamer Vicksburg, and was making a landing, passing through the swells of the Vicksburg, over a shallow place, when her chimneys were shaken overboard, which presented a rather frightful aspect. A consternation was produced among the passengers, and several of them plunged hurriedly into the river, fearing an explosion would take place. No one was drowned.

—The Clarksville (Tenn.) *Patriot* of Friday says: A company of Northern capitalists are now building a stern-wheel steamer at Dover. It will be the largest ever put afloat upon the Cumberland, being one foot longer and other ways proportionate. We have been told that the timber in that section is of the finest quality for boat building. The immense forests of that section may yet become a great source of revenue. Instead of carrving timber such great distances for boat building, it would be comparatively cheaper to establish docks were the timber is at hand.

DISEASED LUNGS.

There is no doubt whatever that diseases of the lungs, or ulcers of whatever sort, on any of the internal organs may be, and are frequently cured, and a complete condition of health established. If the elaborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs, the liver, the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out of the animal economy all effete and used up material. Dr. K. says that he has known the most distressing and harassing coughs, whose vibrations would threaten to shake the whole constitution to pieces, removed in the course of a few days In long standing cases of consumption, or of other sometimes fatal, but always troublesome and annoying maladies, known as catarrh, chronic bronchitis, trachitis or pharyngitis, it is a wonderful alleviating medicine in the former and a sure cure in he latter disease.

DR. KEYSER'S LUNG CURE IS ENRICHED BY SOME OF THE MOST VALUABLE PLANTS AND HERBS KNOWN TO BE USEFUL AND CURATIVE IN ALL DETERIORATED STATES OF THE HUMAN BLOOD, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glandular system to sufficient action to enable the body to take on healthful action and eradicate the disease. The sick and afflicted should bear in mind the virtues of this great medicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and rapid consumption, hopelessly incurable and so most surely fatal.

GOLD closed yesterday in New York at 134¾.

THE official majority of the State will fall about seven hundred short of thirty thousand.

OMAHA, Nebraska, cast at the recent election 3,052 votes, showing a population greater than that of any city west of Chicago and north of St. Louis, with the exception, perhaps of Quincy, Illinois.

THE nineteen counties on the western slope of the Allegheny mountains furnished GRANT and COLFAX with 19,363 majority, or nearly two-thirds of the State majority. Of this, Allegheny county alone gave 10,816.

IOWA gives nearly 55,000 majority for GRANT, and 25,000 for Equal Suffrage. Missouri gives over 25,000 for GRANT. In Kentucky there are 50,000 Republicans to lend a hearty support to President GRANT, while the rebel Ku-Klux organizations of that State, in spite of their 60,000 majority, are completely demoralized and lost.

U. S. SENATOR QUESTION.

The presence this week of a considerable number of members elect of the Legislature in this city as jurors in the United States Circuit Court, has awakened an interest in the Senatorial question. The friends of various candidates have been active in pressing their respective claims. The canvass so far shows an activity and earnestness which may foreshadow the actual contest when the Legislature shall assemble.

Yesterday, a well known Senator announced the withdrawal of the Hon. WILLIAM H. KEMBLE from the field. The announcement was made on the strength of that gentleman himself; and took many here by surprise because of the apprehension that he was the most formidable contestant for the position.

The novelty of this withdrawal consists in the complete ignorance that such a contingency was contemplated on the part of the individuals specially charged with the management of his case, until Mr. KEMBLE's conclusion was promulgated as has already been stated.

What relative positions this withdrawal leave the remaining contestants in, we shall not undertake to tell. But, we feel satisfied that if there was but one aspirant in this county his chances would be greatly improved, insomuch that his success would appear probable. Shall there not be only one?

It is just to state that Mr. KEMBLE's friends who are on the gaound entirely discredit the statement of his withdrawal.

WORK AND WORKERS.

The *Dispatch* reluctantly admits the accuracy of the remarks we made the day before yesterday upon the different sorts of workers and the various rates of remuneration accorded as muscular or mental power is required; and then goes on to cavil at our conclusions as harsh and unchristian. Truth is not always palatable, but is none the less necessary to be told for that.

Our neighbor can demonstrate for himself, if he will, whether the ideas we propounded are true or false. He is a mental worker mainly; that is, he puts much more brain power than muscular energy into his daily toil. He is paid in proportion to what he does. Now, let him seek out an employment, and engage in it, which requires comparatively little thought but great force of bone and sinews. He will find his wages largely diminished. If not satisfied with this experiment, let him select a vocation that requires in it next to no mind, but great brute force and energy, and he will doubtless desire to go no farther.

Doubtless all true work, whether of mind or body, is honorable, and our own lives, from childhood up to this day, bear testimony that we are neither ashamed or afraid of any kind of work, and have done a full share of many sorts. We have neither sympathy nor patience with kid-gloved, dawdling sentimentalism. We have roughed it, and know exactly what that means, and how valuable is the discipline that comes thereby. But we found out years ago, if a mechanic would increase his gains and respectability, he must give his spare hours not to loafing, but to study, and must then put the best results of his studies into his work. This is a pretty sure way to win, and we know of no other way that holds out a tythe the advantages this does. Grumbling at Fate or at Society gratifies a disappointed man's spleen, but it seldom mends his case. But the worker who steadily enlarges his stock of knowledge, and puts as much of it as he can into his work, is certain to deserve success and to attain it.

Many mechanical and manufacturing employments require large shares of intellect; more than are ordinarily put into professional pursuits. The pay is proportioned mainly to the brain force demanded. The exceptions are found in those cases in which delicacy of manipulation is required. This depends upon a special nervous organization; and the nerves sustain intimate relationship with the brain itself.

By mind men are allied to the orders of intelligences that are above them; by body to the orders of the brute creation below them. We do not see how any fair inferences from these premises are to set aside.

GRANT'S ELECTORAL VOTE—ANOTHER UNCONDITIONAL SURRENDER.

A two-thirds majority of the Electoral vote—204 to 90—has, by general consent, been conceded to General GRANT, as the result of the election. Special advices, dated on the 6th, from Little Rock, claiming Arkansas also for GRANT by 4,000 majority, with the election of all three Republican Congressmen, will, if confirmed, make the Electoral vote stand 209 for GRANT and 85 for SEYMOUR.

Their defeat has been so crushing, and the prospect for retrieving the fortunes of the Democracy as a party is so evidently hopeless, that many of those who were lately its prominent leaders are now in consultation upon the idea of abandoning even the show of a contest in the Colleges, and making an unconditional surrender of the unanimous vote of two hundred and ninety-four for the Union nominees. To that end, a circular letter has been addressed, from high Democratic quarters at Washington, to prominent Democrats throughout the country, North and South, as follows:

WASHINGTON, D. C., November 7, 1868.

DEAR SIR: In my judgment, the wisest thing the Democracy could now do would be to throw their entire electoral vote for General Grant, as an indication of the fact that, should he pursue a liberal, generous and magnanimous course, they will sustain him. It would also have the effect of not leaving him altogether in the hands of the adverse faction, and would doubtless strengthen any purpose he may entertain toward the conservative sentiment of the country. This vote can not possibly do Seymour any good, and thrown in the mnnner suggested would, at least, produce a conciliatory impression.

Very truly, yours, &c.

The Cincinnati *Enquirer* prints this circular without dissent, its Washington dispatch characterizing the movement as "urged with a view to influence GRANT to a conservative course, to which he is doubtless inclined."

The friends of General GRANT are prepared to give a cordial welcome to the entire array which recently opposed them. Our ranks are open to receive all, who shall come to us animated by a patriotic desire to inaugurate an universal and hearty re-establishment, in every quarter of the Republic, of that peace which our great leader has, now as at Appomattox, proven his ability to conquer. The party of the Union and of peace is rapidly absorbing the masses of those who, scarcely one week since, gave their suffrages to other candidates, and, hour by hour, our lines need to be reconstructed by a fresh expansion, in order to enfold the hundreds of thousands of citizens who have wearied of a discreditable and unprofitable partizanship, and have come to join their voices with ours, in demanding that repose which the highest interests of the Republic so much need.

In the first hour of our triumph, it needed no gift of prophecy to enable us to foresee this auspicious result of the great popular movement of the 3d of November. The mighty power of Truth had clearly manifested itself in the obliteration of partizan distinctions, and the final doom of a factious opposition was pronounced in utterances admitting of no appeal.

Each subsequent hour has seen this judgment ratified by the swelling consent of all loyal people, so that the lapse of but a single week finds that great organization which attempted to stem the popular tide at the polls, already stripped to the skeleton machinery of leadership by which it had been moved. And so events repeat themselves. The rank and file of another opposition surrendered itself at Appomatox, and it needed but a few days more to secure the persons of the fugitive DAVIS and his meagre following of officials in the expiring twilight of the lost cause. Appomatox had its peaceful duplicate last week, and this week brings the despairing leaders to our camp.

These gentlemen would not be wise in still clinging to any hope that their policy can survive its terrible overthrow. They would be blindly short-sighted, if they fail to see that it is a principle and not a man which has conquered them. They must forget their old sagacity when they ignore the true meaning of the popular movement which has so quickly left them, leaders without a following behind them. They would underrate the man himself when they affect to believe that he can be cajoled with their Greek gifts, to be unfaithful either to his country or to himself. We prefer, therefore, to accept this movement as their acknowledgement that the New Era is to see but one party in the land, and that they propose to accept the situation none the less heartily because they have not emulated the frankness of the popular confession.

If there should remain with any of these gentlemen, who were lately in opposition, the least, lingering shred of hope that, by covert intrigues and carefully gilded temptations of whatever nature, they may mold ULYSSES GRANT to any purposes not in consonance with that great mission of Union, Order, Peace and Prosperity, to which he has been Providentially appointed, we, who know him so well, may contemplate their efforts in that direction with a feeling which would be pity if it were not of the most absolute indifference. Let them ply all their artful cunning! Let them intrigue at their pleasure and according to their natures! They will find GRANT, whether General or President, as inaccessible to their unworthy seductions as invulnerable to their manlier blows. The people, who see in him the coming man for all the great needs of the Republic, have no fears that he will be found ever unequal to any official responsibllities, or untrue to that lofty nature which has won the confiding regard of thirty millions of his countrymen.

The true and the only way, to make President GRANT a Conservative, is, first to exhibit to him a people no longer divided, but thoroughly united in upholding the power of the law, in maintaining the national integrity in all its parts, in sustaining the absolute inviolability of the Federal Constitution as it is. Our Constitution, our Laws and our National Honor, these are the objective aims of all true patriots; more than that, these are the fruits, already ripened and garnered, of this Nation's work; these are to be preserved, and. in them, all that is worth preserving of Republican Liberty. Preserving these, we shall all be Conservatives, and President GRANT our chief. Nor are we without a hope, apparently as just as it is sincere, that the leaders of the late Democracy will yet emulate the popular example, and that, by the general consent, President GRANT will come to his high duties, called thither by the unanimous Electoral suffrages of the American People, as he is the first Republican candidate to obtain a decisively clear majority of their primary vote.

THE PRESIDENTIAL ELECTION.

THE NOVEMBER METEORS.

The recurrence of the November meteors may be looked for from the 12th to the 14th of this month. Although it is improbable that their number will equal that of preceding years, it may be expected to exceed that of those seen in ordinary nights, and it will be of interest to many to know that valuable observations may be made with a common watch.

Among the points to be noted are, 1st. The number of meteors seen by any one person in any given hour of the night. 2d. The position of the point from which the meteors appear to radiate. This point has hitherto found to be a little northwest of the star *gamma*, seven in the constellation Leo, which rises about midnight, after which the number of meteors increases. It is important to fix the point with accuracy, and any one with a good celestial globe or star atlas, is as well equipped for the purpose as the professional astronomer, whose usual instruments are here useless.

The third and most valuable observation consists simply in noting the hour, minute and *second*, at which any of the more conspicuous meteors appear or disappear, with a description of their path as referred to neighboring stars. We understand that arrangements for simultaneous observations at widely distant points throughout the country are in progress, and we are requested to say that any, coming under the above head, made in this part of the State, will, if addressed with the writer's name and residence to the Allegheny Observatory, Allegheny Postoffice, be much valued.

To give accuracy to the last class of observation here, the watch may be compared at any hour on the day preceding and following, with the regulator of the city time of Messrs. J. R. REED & Co., and the error in each case stated in the communication.

The use of this minute accuracy will be partly seen when it is considered that only by most exact comparison at distant points, can the velocity of these bodies (frequently exceeding twenty miles per second) be determined. In very rare instances, they have been identified at points as widely separate as the Atlantic or Mississippi, a distance traversed by such a meteor in an hour and a minute.

CITY COUNCILS.

Special Meeting—The Spruce Alley Question Again—Oakland Passenger Railway, &c.

A Special meeting of City Councils was held at 2 o'clock, P. M., yesterday, relative to the vacation of Spruce alley.

Select Council.

Members present:—Messrs. Brown, A. M., Cochrane, Coffin, Dickson, Gross, Jones, Kehew, Morrow, M'Ewen, M'Kibben, Phillips, Rafferty, Wainwright, White, and President McAuley.

The President stated that the meeting had been called at the request of a number of members relative to the Spruce alley controversy, and also to take action relative to the relief of the Oakland Passenger Railway. He further stated that if there was no objections, he would introduce new business.

He then read an ordinance supplementary to an ordinance relative to the opening of Locust street, between Stevenson and Pride.

On motion of Mr. White, the ordinance was read three times and passed.

Mr. McEwen presented a petition asking for the opening, grading and paving of Roberts street from Centre avenue to Bedford avenue. Referred to the Street Committee.

The Chair, in place, read the report of the viewers appointed to assess damages and benefits in the opening of Larimer avenue, in the Twenty-first ward.

On motion of Mr. Gross, the report was received and approved.

Mr. Phillips submitted a communication from Jackson Duncan, stating that the city owed him $1,800 for damages assessed in the opening of Fifth street extension.

On motion of Mr. Kehew, the communication was referred to the Finance Committee.

The Chair, in place, presented an ordinance appointing James D. Kelly and Andrew Miller as viewers to assess damages and benefits on the opening of Forbes street, in place of those previously appointed, they having declined to serve. Adopted.

Mr. McKibben presented a resolution authorizing the division of the $4,000 appropriated to the Road Committee equally between the road districts. Adopted.

The Chair, in place, presented the bill of Henry Snively, Recorder, for recording ordinances, &c., amounting to $90. The bill was received and ordered to be paid.

Dr. Gross offered the following resolution:

Resolved, That a committee of five, two from the Select, and three from the Common Council, be appointed to confer with the officers of the Pennsylvania Railroad Company, as to what action, if any, Councils should take to co-operate with the citizens living on the line of the Railroad, in securing a more convenient point for the arrival and departure of the local trains of the Pennsylvania Railroad Company, than at present exists; and also, what action, if any, may be necessary for Councils to take to secure the abandonment of the railroad track on Liberty street, by enabling the said Company to secure ample depot facilities between Liberty, Seventh and Smithfield streets.

Adopted, and Messrs. Gross and A. M. Brown appointed in S. C. C. C. concurred and appointed Messrs. Batchelor, Hare and Carroll.

Mr. Morrow presented the following resolution:

Resolved, That the Gas Company be authorized to have a lamp erected at the corner of Pride and Forbes street.

Referred to Gas Committee.

Mr. Coyle presented a petition asking for better drainage on Canton and Commerce streets. Referred to Street Committee.

Mr. Phillips presented a communication from the City Controller, setting forth that he could not certify certain warrants on the Contingent Fund, on account of said fund being exhausted.

Also a resolution authorizing the Controller to draw a warrant on the contingent fund in favor of Allen & Drum for street crossings for $4,330,06, and in favor of Samuel Allinder for $119. Adopted.

Mr. Phillips called up the ordinance providing for the relief of the Oakland Passenger Railway. After considerable discussion the matter was again laid over until the next regular meeting.

Mr. Jones presented a petition from Armstong & Co., asking permission to construct additional coak ovens near dam No. 1.

After considerable discussion Mr. Morrow moved to lay the petition on the table. The motion was lost.

Mr. Jones moved that the prayer of the petioners be granted, provided that the number of coak ovens to be erected be limited to twenty, and that the privilege is subject to the order of Councils hereafter. The motion was adopted.

On motion adjourned.

Common Council.

Present: Messrs. Batchelor, Berger, Boggs, Brush, Carroll, Daub, Bravo, Davis, A. J. Gerner, Hare, Hemphill, Herron, Jeremy, Kremer, Mawhinney, Meyer, Moorhead, Palmer, Rebman, Reynolds, Robb, Rosewell, Scott, A., Scott, J. R., Sims, Torley, Verner, Weldon, Welsh, Zern, and Tomlinson, President.

Minutes of the last meeting were read and approved.

Mr. Welsh presented a remonstrance against the vacation of Spruce alley, signed by over five hundred citizens, and asking Councils to rescind its former action in the matter.

Mr. Weldon offered a resolution that Councils reconsider its former action in vacating Spruce alley.

Mr. Robb thought the motion to reconsider was out of order, and in support of his views read Rule XX of the Rules of Select and Common Councils, which reads as follows:

"When a question has been once taken and decided, affirmatively or negatively, it shall be in order for any member who may have voted in the majority to move for reconsideration; but no motion for re-consideration shall be in order unless made on the day on which the vote may have been taken *or at the next subsequent meeting thereto* and before final action of both Councils may have placed the matter voted upon beyond recall."

Mr. Welsh argued that so long as the resolution authorizing the vacation of the alley had not been recorded, Council had a right not only to reconsider but to rescind its former action.

Mr. Batchelor asked that the President first decide whether Councils had the power in this particular case, to reconsider its former action.

The Chair decided that the motion to reconsider was in order.

Mr. Herron appealed from the decision of the Chair and called for the yeas and nays.

The decision of the chair was sustained by the requisite number of votes.

Mr. Weldon then called for the question on his motion to reconsider, and upon a call of the yeas and nays it was carried in the affirmative—yeas 20, nays 11.

Mr. Welsh moved that Councils now rescind the resolution originating in Select and concurred by Common Council, vacating Spruce alley.

Mr. Robb opposed the motion at some length.

Mr. Brush thought that as the Select Council had ruled the motion out it was useless for the Common Council to take action on the subject.

Mr. Robb, for the sake of consistency, wished that the action of both branches might be uniform, and, therefore, hoped the President would reverse its former decision.

Mr. Hare hoped the Common Council would do what was right in the premises, no matter what action Select Council might see proper to take.

The President said as the matter originated in Select Council, that branch would have no right to reconsider or rescind its former action; but so far as Common Council was concerned, the matter was entirely different. He still held to the opinion that the body over which he presided had a perfect right to reconsider or rescind its former action in this particular case.

A vote was then taken on Mr. Welsh's motion to rescind, which was carried in the affirmative by the following vote:

Yeas—Messrs. Berger, Daub, Dravo, Davis, A. J., Gerner, Hare, Jeremy, Kremer, Mawhinney, Meyer, Palmer, Robb, Rosewell, Scott, J. R., Sims, Verner, Weldon, Welsh, Zern, Tomlinson, President.—20.

Nays—Messrs. Bachelor, Boggs, Brush, Carroll, Hemphill, Herron, Moorhead, Rebman, Reynolds, Scott, A., Torley.—11.

Mr. Bachelor offered the following resolution:

Resolved, That the City Solicitor be and he is hereby required to give his opinion on the following subjects, in reference to vacating streets or alleys in the city of Pittsburgh: First: have Councils the right to vacate a street or alley and sell the same? If so, to whom shall the proceeds of such sales go? to the city, to the original owner of the ground, or to be divided pro rata amongst the owners of the ground abutting on the street or alley so vacated?

Mr. Weldon moved to lay the resolution on the table. Lost.

The question was then taken and the resolution passed.

Mr. Brush presented a communication from Jno. A. Sergeant, Secretary of the Central Board of Education, asking that a Committee of three (one from Select and two from Common) be appointed to audit the accounts of the Board for the year 1868. The President appointed on the part of C. C. Messrs. Berger and Robb.

Mr. Jeremy presented a petition from certain citizens, property owners, asking a postponement of the grading and paving of Poplar alley for the present. Referred to Committee on Streets.

On motion adjourned.

A Felt Compliment.

At the Monongahela House are quartered just now a school of full-fledged politicans, brought hither from all parts of the State to do some practical good for their country in the jury box of the United States District Court. A jolly good time they are having, for, as a general rule, politicians know how to enjoy themselves when thrown together. Last night, Col. S. M. Quay, of Beaver county, was made the recipient of a splendid new hat, the generous gift of Hon. Mr. Karns, of Philadelphia, who, in the ceremony of presentation, made a very happy speech. On behalf of the gentleman honored with the hat—not that he needed one but that he should be covered with evidence of the friendship of the donor—Hon. Elisha W. Davis responded in a feeling manner, after which those in attendance partook of the usual "elegant and sumptuous banquet," and all went merry as a marriage bell.

THE great blast at Lime Point, near San Francisco, for which preparations have been going on for some months, was exploded October 24th. The mine was eighty-two feet deep, with chambers one hundred and eighty feet. Twelve tons of gunpowder were used, and eighty thousand tons of rock were thrown down, twenty thousand of which went into the bay. It was the most completely successful engineering feat ever attempted on the Pacific coast. It is estimated that it will take forty men six months to clear away the debris and make ready for the fortifications.

THE GREAT MEDICAL MISTAKE

Of former days was an utter neglect of sanitary precautions. No efficient means were adopted for the prevention of sickness. Sewerage was unknown in cities; drainage was rarely attempted in the country. Heaps of offal were left to rot in the public streets, and domestic cleanliness, the great antidote to febrile diseases, was sadly neglected. It is not so now. Wise laws, philanthropic institutions, and a vigilant sanitary police, have, to a great extent, remedied the evil. Nor is this all. PREVENTIVE MEDICATION has helped materially to lessen the rates of mortality. It is not too much to say that TENS OF THOUSANDS escape sickness in unhealthy seasons in consequence of having INVIGORATED THEIR SYSTEMS IN ADVANCE by a course of HOSTETTER'S STOMACH BITTERS. This pure and powerful vegetable tonic and alterative comprises the extracts and essences of a variety of roots and herbs, renowned for their strengthening, soothing, vitalizing and purifying properties. These medicinal agents are incorporated with a spirit absolutely free from the acrid poison which defiles, more or less, all the liquors of commerce, and their effect is diffused through the whole frame by this active, yet harmless stimulant. The result is such a condition of the system as renders it *all but impervious* to the exterior causes of disease, such as damp fog, sudden alternations of temperature, &c. Strength, and the perfect regularity of all the functions of the body, are the best safe-guards against atmospheric poison and the effects of unwholesome water, and HOSTETTER'S BITTERS are the best strengthening and regulating medicine at present known. For dyspepsia and billiousness they are a SPECIFIC AUTOLOGY.

LET ANY ONE TRY A FEW BOTTLES OF DR. KEYSER'S LUNG CURE AND IT WILL ESTABLISH ITS MERITS BEYOND CONTROVERSY.

We feel, in whatever we say in its behalf, that we are conferring a benefit upon thousands of people who would be benefitted by its use. Take any large audience or gathering of people, pay attention for a moment, and see if one out of every ten is not afflicted with a cough. There is no cough without some difficulty of the throat or lungs—trifling it may be at the outset, but gradually growing more and more fearful, until the constitution, at last, is made to succumb to its ravages; and what would have yielded in the beginning to a few doses of medicine has become a fearful lesion, involving life itself. No one can be too careful at this season of the year, to the first premonitors of pulmonary disease, and when a remedy like the one we have named, is within the means of all, the salutary advice which we have given should not be disregarded. Sold at the great Medicine Depot, 140 Wood street.

Punishment of Political Villainy—The Self-Sacrificing Patriotism Necessary Therefor.

Editors Gazette: What you have repeatedly urged respecting the duty of punishing political frauds, and especially the desecration of that sacred urn of Liberty, the ballot-box, finds an echo in every patriot heart; for if the perpetrators of these frauds in the late elections are now allowed to pass unpunished, we shall richly deserve the maledictions of those coming generations who will mostly suffer by it. These villains just now are enacting the part of the horse thief in the hands of the officer of the law. "Mr. Sheriff," says he, "let us be friends, you let me alone and I'll let you alone. It was only a joke; don't persecute me, that is unchristian, you know, besides you have been successful, you have got your reward for arresting me, so now just close your eye for a minute, and may be I'll vote for you at the next election." Shall we be guilty of thus compromising this felony and thus sinning against posterity? But the punishment of these crimes will require a more genuine patriotism than is needed for blowing one's own horn through a political campaign. Who has that patriotism? That is now the question.

The result of the campaign summed up— *a la* Grant:

The campaign now is ended.
Henceforth let discord cease;
The people gives us Grant,
And pray God *Grant* us peace.

PROPOSAL.

The Commissioners appointed by the Senate and House of Representatives of the Commonwealth of Pennsylvania for the purpose of locating and building a

HOSPITAL FOR THE INSANE,

for the Northern District of Pennsylvania, having selected a site on the Susquehanna river in the vicinity of Danville, Montour county, Pennsylvania, will receive proposals until

TUESDAY, NOVEMBER 24th, 1868,

at noon, for the erection and construction of a Hospital with all its appurtenances upon said site in accordance with all the plans and specifications of John McArthur, Junior, Architect, adopted by them and approved by the Governor.

The plans and specifications can be examined at the office of the Architect, No. 205 SOUTH SIXTH STREET, Philadelphia, every day, (except Sunday,) between the hours of 9 A. M. and 5 P. M., until the time above mentioned for receiving bids.

Parties making Proposals, must furnish sureties, whose responsibility to the amount of $10,000 shall be certified to before a Justice of the Peace, that they will, in case their bid is accepted, enter into a contract, within ten days from the time of opening the bids, with satisfactory security to the amount of $25,000 that the same will be fulfilled in a complete and satisfactory manner.

Proposals to be considered must be in accordance with the printed form adopted by the Commissioners, which can be obtained from either of the Commissioners, the Superintendent of the Hospital or at the office of the Architect.

All bidders desiring information of the site are referred to Dr. S. S. Schultz, Superintendent of the Hospital, at Danville.

Proposals must be marked as such and sent to Isaac X. Grier, Esq., Danville, Pennsylvania, in whose office the bids will be opened in presence of such bidders as may be present on the evening of Tuesday, November 24, 1868.

The Commissioners reserve the right at their discretion to reject any or all bids not deemed to the interest of the Commonwealth or otherwise satisfactory to them.

JOSEPH A. REED,
TRAILL GREEN, } Commissioners.

This Company, National in its character, offers, by reason of the Large Capital, Low Rates of Premium and New Tables, the most desirable means of insuring life yet presented to the public.

The rates of premium being largely reduced, are made as favorable to the Insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-Holders.

Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, *an annual income equal to ten per cent. (10 per cent.) of the par of his policy.* The latter the Company agrees *to return to the assured the total amount of money he has paid in, in addition to the amount of his policy.*

The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Company.

Circulars, Pamphlets and full particulars given on application to the Branch Office of the Company in Philadelphia, or its General Agents.

☞ LOCAL AGENTS ARE WANTED in every City and Town; and applications from competent parties for such agencies with suitable endorsement, should be addressed TO THE COMPANY'S GENERAL AGENTS ONLY, in their respective districts.

"MARGARET MERLYN,"

IS THE TITLE OF

MRS. SWISSHELM'S

long talked of work. It is a tale of

WOMAN'S WAGES,

and abounds in the home truths for which the author is noted, and which are here interwoven with a dramatic interest, and that is unflagging to the end. An accomplished critic, who read it, says: "There is not a dull page in it." It gives startling revelations of the inside workings of private beneyolent institutions, and must be deeply interesting to all who would like to know what sometimes is done with the money paid to charitable societies. It will be commenced as a serial

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, November 10, 1868.

Some newspapers are very clamorous about the issue of more greenbacks, and it may be that the Secretary of the Treasury can be prevailed upon to acquiesce in this mode of stimulating business; as before spoken on the subject in yesterday's issue more fully, it is the most dangerous expedient to galvanize business, and the reaction must be the more disastrous the more time is lost in coming back to a specie standard.

Gold opened strong this morning at 135¾ to 135½, with, as was supposed, an upward tendency, and some of the speculators dreamed already of 140 which they were to get for their gold; the resction in the money market from easy to stringency brought down prices, and, in the meantime, the bull party having sold their cheap gold, the market declined from 135¾ to 134⅜ this evening.

Bonds opened bouyant and higher, without any new purchasers coming to sustain the market, and dealings were confined to covering short contracts; the market closed weak and dull, and in case of a continued atringency may touch a point below the one reached Friday last.

Stocks were bouyant last night, but closed dull this afternoon, and are drooping.

Money is not quite so tight in the city as was the case last week, but lenders are careful to whom they give.

Business dull.

Closing quotations as received by Ph. R. Mertz: Gold, 134¼; United States 1881s, 112¼; Five Twenties, '62, 108¾; do '64, 106¾; do '65s, 106⅝; do new, 109¼; do; '67s, 109⅜; do '68s, 110½; Ten-Forties, 104¾; Silver, 126; Ohio & Mississippi Certificates, 29¼; Western Union Telegraph, 35½; New York Central, 119⅛; Erie, 38¾; Reading, 96⅛; Michigan Southern, 82¾; Cleveland & Pittsburgh, 83¼; Chicago & Rock Island, 103¼; Northern Western 81¼; do Preferred, 82¼; Fort Wayne & Chicago, 108⅜; Merchants Union Express, 20¾; Adams; 47¼; Pacific Mail, 117; Quicksilver, 23¾.

—We clip the following from the Cincinnati *Chronicle*, of Monday: By a prompt and decisive move, made by the officers and of the Pittsburgh, Fort Wayne & Chicago Railroad, on Saturday last, arrangements were perfected for giving that road a direct line to Cleveland via Massillon. This is to be done by the completion of thirteen miles of road from Massilon to Clinton, and forming a connection with the Cleveland, Zanesville & Cincinnati Road, which is now completed to that point. Two hundred thousand dollars are required, of which $153,000 was taken on Saturday, ten pet cent. of which was immediately paid in. The following officers were elected: Simon Perkins, of Akron, Ohio, President; F. M. Hutchinson, of Pittsburgh, Secretary and Treasurer; H. A. Gardner, of Pittsburgh, Chief Engineer; J. N. McCullough, of Wellsville, George W. Cass and Wm. Stewart, of Pittsburgh, M. A. Hinna, of Cleveland, and Kent Jarvis and John G. Warwick, of Massillon, Directors. It is expected that the road will be completed by the first of June next.

—The Chicago *Tribune* of Monday says: The failures that have occurred in the West have been caused by the decline in prices of grain, and are not traceable to any general scarcity of money. It is, therefore, fair to presume that the causes of the New York stringency are entirely local, beginning in a stock gambling manœvre, the effects of which have been increased tenfold by alarm, until the apprehension has extended to the business community. The announcemont of the Secretary of the Treasury that he has authority to re-issue nearly $10,000,000 of greenbacks, and yet be within the limit of the law, is good as far as it goes, and is calculated to quiet the alarm, and restore confidence even if he should never increase the present circulation a dollar. And in this connection, it is a question whether he has the facility for putting any of this $40,000,000 into the general circulation. The government's revenue is sufficient to meet all of its current obligations. The government is now neitheg a purchaser of any kind of supplies, nor a borrower of credit, for which it could pay out these greenbacks, and the difficulty that will be experienced in getting any part of even this amount into circulation will show the ridiculousness of the much gabble there has been about an increase in the volume of the circulation by issuing more greenbacks.

—Closing quotations received by James T. Brady & Co.: Gold, 134⅝; United States Stocks, 1881's, 112¼; 5-20's, 1862, 108¾; 5-20's, 1864, 106⅞; 5-20's, 1865, 107; 10-40's, 104¾; 5-20's, January and July, '65, 109½; 5-20's, January and July, '67 109⅝; '68, 110⅛; June 7-30's, par less ¼; July 7-30's, do ¼; August 119; Sept., 119; Oct. 118½; Union Pacific Railroad, 102; Central, 103.

CHICAGO, Nov. 10.—Cattle firm and steady at $3,25a4,25 for extra choice cows. Hogs active and firm at $6,50a6,70 for common; $6,90a7,25 for fair to medium, and $7,40a 7,75 for good to choice.

Cincinnati Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, November 10.—Cattle dull at $3a6 per cental gross, the supply being in excess of the demand. Sheep steady at $3 a$5 per cental gross,

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, November 10, 1868.

The wet and inclement weather had a tendency to retard out-door business today, which, at best, is exceedingly dull. The depression in Grain still continues, and the same is true of Flour and some other articles, but we are in hopes that an improvement is near at hand; the great drawback just now is the want of confidence; once it has been established that prises have touched bottom, an improvement would soon take place, as both dealers and speculators would take hold again. But until this point has been settled, it is not reasonable to expect any improvement.

APPLE BUTTER—Is dull and unchanged; we continue to quote at 75 cts in kegs, and 80 to 85 in crocks.

APPLES—Very abundant and dull but unchanged; sales in a regular way at $2 to $4 per bbl, for common to choice,

BUTTER—Is steady with regular sales of prime to choice Roll at 38 to 40.

BUCKWHEAT FLOUR—Is dull and drooping; we now quote at 4¾ to 5 cents per pound.

BEANS—Dull and lower, under the influence of increased arrivals; we now quote at $3,50 to $3,75 per bushel.

CHESTNUTS—In rather better supply and cannot fairly be quoted above $6,50 per bushel.

CIDER—Is in steady demand, and we can report sales at $6 to $9 per bbl, according to quality and size of barrel.

CRANBERRIES—None in market.

CHEESE—Is quiet and unchange.

EGGS—Fresh packed at 34 to 35 cts.

HAY—Sales at Allegheny Dimond Scales of 44 loads $30 to $35 per ton. Baled is dull and may be quoted at $20 to $26.

STRAW—Is in better demand and higher; sales at Allegheny Diamond Scales at $20 to $22 per ton.

POTATOES—Peach Blows are in good supply, and cannot be quoted above 75 cts in bulk, and 80 to 85 in sacks. Sales of Jersey Sweets at $5 to $5,25 per bbl.

DRIED FRUIT—Quiet and unchanged; we quote Peaches at 12 for quarters, and 14 for halves. Apples 9 to 10 cts.

GRAIN—Wheat is dull, and there is not enough doing to establish quotations. The mills do not seem disposed to make any new contracts until they work up their old stock, while for speculation there seems to be no inquiry. Prime Winter may be quoted at $1,80 to $1,83. Oats dull but nominally unchanged; we continue to quote at 63 to 64c, on wharf and track. Corn is dull and drooping; we have a sale of mixed reported at $1,05. New Corn continues to be a perfect drug, and may be quoted at 75 to 80c. Bye is dull and nominal at $1,35 to $1,40. Barley is about as flat as ever; may be quoted at $1,80 to $2, according to quality.

ONIONS—Continue dull, with a supply largely in excess of the demand; $4 to $4,50 per bbl.

FEATHERS—Sales to the trade at 75c, and in small lots at 80 to 85c.

TALLOW—Prime rendered is in steady demand at 12c.

FLOUR—There is no improvement to note in the demand, and while the market is dull, prices are unchanged. Spring Wheat brands range from $7,50 to $8,25 for good to choice. Rye Flour, $8 to $8,25. The Pearl Mill prices are for Extra Family in barrels, $9,90 and in sacks $9,60 per barrel; Double Extra Family in barrels $10,40. and in sacks $10,10 per barrel. City Mills quote prices as follows: Extra Family, in barrels, $9,80, and in sacks, $9,50; Double Extra Family, in barrels, $10,30, and in sacks, $10 per bbl.

PEA NUTS—We can report regular sales at $2 to $2,25 per bushel, as to quality.

WHISKY—The market is quiet and unchanged at $1,20 for both Raw and Rectified.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, November 10, 1868.

CRUDE.

The operations in Crude were unusually large to-day, footing up about seventeen thousand barrels, and while the market was more active, prices are lower. We can report 5,000 bbls on spot at 10; 3,000 do for November, seller's option at 10; 1,200 do same delivery option and price; 4,000 for December at 10; 1,000 each for January February and March, 1869, at 10½; 1,000 same months, seller's option, at 10. From the above it will be seen that spot oil may be fairly quoted at 10, which is the lowest point it has touched for several months, and we are cognizant of several bets having been made some time since that it would not touch that figure this year. The first three months of 1869 may be quoted at 10 to 10½; indeed, these quotations will apply to almost any delivery within the next five months. It was thought that the reported falling off in the production would have tended to stiffen the market somewhat but, thus far, it has had no effect.

REFINED.

The market for Refined continues dull and weak, and prices have still further declined. We can report sales 500 bbls for the last half of December at 26c; 500 each for November and December at 26c; 500 for first half of November at 25¾c, and 500 for the last half at 26½c. At the close, the market was steady ot 26c for November and December, either together or separately. The market has pretty effectually collapsed during the past few days, as prices of both Crude and Refined are now lower than they have been for some time, and the way matters look now, the bottom has not yet been touched, We do not hear of any special cause assigned, further than that the season is pretty well advanced, and, heretofore, low prices have usually prevailed about this season of the year. It was just about this time last year that the market broke, and, of course, the same thing was generally expected to occur again this year.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 10.—Dry Goods, in the general trade, is inactive, although there is little more doing with the change of cooler weather. Prices are without much change, the only alteration of moment today being in Amoskeag A bleached Muslins, which are selling at 15c, and Waltham bleached, which are reduced to 1 shilling. Heavy brown Sheetings steady at 15a16c; Printing Cloths 7¾a7¼c for good to best makes; 12½a13½c for first-class Prints, and 14½c for Cacheco Robes. In Woolens the business remains inert on the whole, though a modest inquiry is noticeable for black Beavers worth from $2,50 to $3,50, also ladies' Sackings from $1,25a2,00, low priced Flannels and Blankets, which are bringing full prices. but fancy Cassimeres and other kinds of woolens are dull and somewhat heavy,

COMICAL CLIPPINGS.

—Piece Makers—Dramatic Authors.

—Musical dandy—the swell of the organ.

—A grave error—Burrying a man alive.

—After Grant, what? The office seekers.

—A wooden wedding—The marriage of a blockhead.

—A new firm of proof readers in Boston is called the house of correction.

—A criticism on the new play of "After Dark" would be appropriate in the *Watchman and Reflector*.

—Republicans around the newspaper offices, Tuesday evening, wished each other "many happy *returns*."

—A policeman who was discovered asleep on his beat the other night, offered as a defense that he was only doing his duty, for he was *a-resting* himself.

—The Boston *Bulletin* thus happily acknowledges the corn when charged with plagiarism:

"The *Tobacco Leaf* complains that we crib its items. We admit the charge. But as that paper has frequently paid us a similar compliment, we thought we would take from the *Tobacco Leaf* a *quid* pro quo. However, we cherish no hard feelings towards the editors of the *Leaf*, and if they will send us a box of prime Havanas, we will give them a puff."

—The Boston *Bulletin* thus unmercifully manipulates our Minister to England:

When taken to be well shaken—Reverdy Johnson's hand.

Somebody in London has invited the U. S. Minister to visit one of the English ships of war. Of course if he goes aboard the Captain will call all *hands* to quarters.

It is hinted that President Johnson recommended to his namesake, the U. S. Minister, the hand shaking policy—Hany Andy.

Hon R. Johnson has been rather *whist* on the Alabama claims—thus far he has only *played his hand* and got nothing.

The dinner at which the U. S. Minister met Laird reminds one of a unanimous vote at a public meeting—there was such a great show of hands there.

Now Reverdy Johnson has got his *hand in*, he is doubtless astonished at the *hand din* of the American public; it may make him shake so as to *hand in* his resignation.

Some enthusiastic admirers of the U. S. Minister, in Mobile, intend to send him a *hand* of tobacco, and if he *choose* to take it, we suppose he may *expect-to-rate* among the Alabama heroes.

Laird is now trying to *palm himself* off on Mr. Johnson as the friend of America.

Some one says that Hon. R. Johnson would give neither hand nor aid to Admiral Semmes. We would give both—for instance, a hand grenade.

The U. S. Minister is becoming popular among the sporting fraternity on account of his skill in *shaking*. Per contra; the cardplayers say he held a very bad hand at the Liverpool dinner.

The English diplomatists are at their "little game." They invited Mr. Johnson to *take a hand* at Liverpool—and he did it.

Laird is said to have taken a leaf of diplomacy from his interview with the United States Minister—Palm-leaf we suppose.

What Mr. Johnson *should* have said to Laird—Hands off!

Mr. Johnson is said to have praised British work at Sheffield. It is evident that of piece work he rather favors that entirely hand made.

Many of the ships destroyed by the British pirate Alabama were loaded with whale oil. Judging from the U. S. Minister's movements in England, he is going to take his pay in *palm* oil.

Mechanics—A Scientific Lecture from "Judy."

All bodies, if not too corpulent, have the power of motion as well as rest. The best definition of a body at rest, this weather, is that of a person lying on a sofa with nothing to do, and cooling drinks, *ad lib.*; and the worst definition of a body in motion, is running after a cricket ball (thermometer one hundred and seventeen degrees) amid derisive cries of "butterfingers," etc.

The principal mechanical qualities of atoms are attraction, repulsion and inertia. Mechanical attraction is that which draws a mechanic to a public house; repulsion turns him out when he has had too much, and inertia is too frequently the state in which he lies in the gutter outside.

Bodies have the power of communicating motion to each other, thus a body of police will set in very rapid motion a crowd principally consisting of pickpockets. You can test this in any locality—the lower the better—in London.

Two bodies meeting ("Comin' through the rye," for instance) frequently strike each other, especially if both are young and tolerably good looking—in which case I ask, as a scientific person, "Need a body cry?"

Another instance is when a hard substance—say a potato—strikes the eye, the effect is disastrous in both objects, though it is not the eye of the 'tatur, but that of the spectator that suffers most.

But let us come to the practical part, and say a little of those mechanical forces which, like the forces of Lord Napier, can produce great effects with small materials.

The first is a lever, which is a kind of bar; thus, the English bar is a powerful lever to lift people up. Sometimes, by a little pressure, it has been known to raise them to the peerage; but, on the other hand, the bar of the Old Bailey has a directly opposite tendency. A ticket-of-leaver is the most efficient lever for felonious operations. Any bar can be used for lifting; the crowbar is the kind generally adopted for shoplifting. If you wish to know more on this subject, with which watch-making is connected, study Lever's works.

The wheel and axle is a mechanical power that usually does its work weel and axlelently. There are various kinds of wheels; but a fly-wheel is necessary to all machinery, so that London cab proprietors can make a good thing of it by disposing of their old ones. The Wheel of Life has a comic turn and revolves, probably, on a pivot of mirth, which must, of course, be very different from the centre of gravity.

The Inclined Plane. The best definition of this power is a plain lady (of uncertain age) who is inclined for matrimony; but in this case the drawing, or attractive power, is generally rather deficient.

A disinclined plane is a place that's out of order and won't work. The carpenter who attempted to smooth a plank with Salisbury Plain was plainly an idiot.

The screw is the most powerful of all the mechanical forces. A screw loose is universally acknowledged to be a terrible misfortune, and fatal to the successful working of all social, mental, and political conditions.

A ship's screw, or propeller, is essential to the very motion of the vessel; in fact, a ship's crew propel her.

The handle by which a screw works is called a winch, and, it is scarcely necessary to state, was originally invented at Winchester.

The Leg.

Some enthusiastic Frenchman once declared the human leg to be the most philosophical of all studies. "Show me the leg," says Gautier, "and I will judge the mind," and it does seem quite as natural that the leg should indicate the disposition as the shades of the hair should indicate the temperament.

What sloth, for instance, does the obese limb betray? What a shrew is the possessor of a limb like a walking-stick? But what a gentle woman is she of the arched instep, the round ankle and the graceful pedestal, swelling to perfection and modulating to lightness! What dogged obstinacy the rumpy leg with the knotted calf exhibits! What an irresolute soul does the lanky limb betray! How well the strong ankle intimates the firm purpose; how the flat ankle reveals the vacant mind!

Young men about to marry—observe. The dark girl with a large leg will become fat at thirty, and lie abed until mid-day. The brunette with slender, very slender limbs, will worry your soul out with jealousy. The olive skinned maid, with a pretty, round limb, will make you happy. The blonde with large limbs, will degenerate at thirty-five into the possession of a pair of ankles double the natural size, and afflicted with rheumatism. The fair haired damsel with thin limbs will get up at half-past five in the morning to scold the servants, and will spend her nights talking scandal over tea. The little rosy girl, with a sturdy, muscular well-turned leg, will be just the girl you want.

If you can find a red haired girl with a large limb, pop the question at once.

The short lady should always possess a slender limb; the tall lady should possess a large and ample one.

No doubt these hints are reliable, and the prevailing fashions make them quite practical and available.

Gypsies made their first appearance in Hungary in the year 1417, in the reign of Sigismund. In Northern Hungary, inhabited by Slavonians, they acquired domestic habits. In Southern Hungary, they remained nomadic. The color of these gypsies varies from white to red. In Hungary proper they number 20,000 to 40,000. Their trades are blacksmiths, musicians, and horse dealers. Maria Teresa endeavored to interest them in agricultural pursuits, but unsuccessfully. It is told of a band of 1,000 of these gypsies, that they successfully defended a fortress against a more numerous force. Driving back their assailants, they boasted that their victory would have been more complete if they had not expended their powder. Hearing this, the enemy returned, captured the fort, and to their disgrace, killed every gypsy.

Some time ago, President Hinckley of the Philadelphia, Wilmington and Baltimore railroad, informed the authorities of Delaware that after the first instant he would not collect the State tax of ten cents per passenger passing through that State. Mr. Hinckley takes the ground that the law is unconstitutional. It has recently been decided, it may be remembered, that any act imposing a tax upon travel is a restriction upon travel and cannot be enforced. Mr. Hinckley is the first railroad President who has taken this ground in this section of the country, but it is not improbable that President Garrett, of the Baltimore and Ohio company, will follow suit.

Within four hours' ride of Montreal by rail is a colony of from 20,000 to 25,000 Highlanders. The county of Glengarry, on the eastern frontier of Upper Canada, is full of them. In the back settlements they retain their ancient language, sing their Gaelic songs, and have their Gaelic preaching. About half of them are Catholics and half Protestant. The Glengarry men are renowned for their size and strength. It is said that the townships of Kenyon and Lochiel alone could turn out a thousand Highlanders—not a man of them under six feet in his stockings.

A machine for harvesting corn, by taking the ears from the stalks while standing in the field, was exhibited at the recent State fair in Illinois. The apparatus is constructed to strip two rows at once. The stalks are taken between metal-faced fingers, and as the machine advances the butt of the ear is brought in contact with a short sickle, playing at the rear of the fingers, cutting it off, while the stalk passes under the machine without being pulled up; the ears are received into a large hopper at the rear of the machine, and discharged when it is full.

FOR SALE—REAL ESTATE.

FOR SALE.

A FARM OF 30 ACRES, on the line of the Connellsville Railroad, 27 miles from the city, in Elizabeth township, Allegheny county, Pa. The improvements are a fine two-story brick house, with ten large rooms and hall. A large frame bank barn, with No. 1 stabling, and all other outbuildings in complete order. One of the best of orchards, of all kinds of fruit. The soil is rich new bottom. This property adjoins the village of Buena Vista, and has the advantage of churches, schools, mills, stores, &c., and will be sold at the low price of $15,000. The improvements alone are worth at least all that is asked for the property, to say nothing about the land, which is worth for garden purposes at least $10,000. For full particulars call at my office, or WILLIAM A. BELL, Esq., on the premises.

ALSO, A FARM OF 40 ACRES, situated in Elizabeth township, Allegheny county, Pa., on the line of the Connellsville Railroad, about 18 miles from the city. The improvements are a new stone dwelling, with eight rooms; a good barn and other outbuildings. This property is offered at a very low price. Call and secure yourself a good bargain.

ALSO, A FARM OF 120 ACRES, situated in Elizabeth township, Allegheny county, Pa., 17½ miles from the city, on the Connellsville Railroad, opposite Elrod's Station, within 20 minutes' walk of the Station. The improvements are a frame house containing four rooms and kitchen, with a good cellar underneath; very good barn and other outbuildings. A No. 1 orchard, containing about 200 fruit bearing trees, all in good condition. 90 acres cleared land, the residue in good timber, underlaid with 23 acres of coal.

ALSO, A TWO-STORY BRICK HOUSE adjoining the Borough of Elizabeth, Allegheny county, Pa., containing 4 roams and kitchen. Lot 60 feet front by 126 back to an alley. A good Stable, wash house, bake-oven and other outbuildings. I am authorized to sell it at the low price of $1,800, on good terms.

ALSO, In the Borough of Elizabeth, a good two-story BRICK HOUSE, containing 4 rooms. Lot 120 feet square. Will be sold at the exceedingly low price of $2,500, on easy terms.

ALSO, My Farm, known by the name of "Willow Banks," situated on the Connellsville Railroad, 17 miles from the city, containing 79 ACRES, all a good condition. The improvements are a No 1 brick house, two stories high, newly painted, containing six rooms, two halls running full length of the house. The house is situated on a beautiful knoll, is surrounded by fruit trees, shrubbery, vines and flowers, with a graded avenue running to the Yough. River. Also, a large frame bank barn, smoke house, wash house, coal house, bake-oven and other outbuildings, and a never-failing well of water. Two large orchards, containing from six to seven hundred fruit trees, nearly all in good bearing condition. This farm abounds in small fruits, viz: Currants, raspberries, gooseberries, and a fine large strawberry patch, which, in connexion with the richness of the soil and nearness to the city, makes it very desirable for gardening purposes. Very convenient to schools, churches, stores and blacksmith shop.

ALSO, A FARM OF 158 ACRES, situated in Elizabeth township, Allegheny county, Pa., 31 miles from the city of Pittsburgh, on the Connellsville Railroad, at Suter Station. The improvements are a common log house, a good frame barn, with stabling for ten horses; a corn crib and wagon shed; good orchard of fruit trees; fencing very good. 120 acres cleared, the residue in heavy timber land. This farm is valuable—first, for its excellent soil; secondly, its timber; and thirdly, it contains more limestone than any other farm in Pennsylvania, all accessible. The lower vein of limestone is 40 feet thick; several other veins ranging from 2½ to 6 ft. in thickness, lie under the whole farm. For particulars enquire of ELI SUTER, Esq., at Suter Station, on at my office.

ALSO, 173 ACRES, situated in St. Clair township, Westmoreland county, Pa., near the line of the Pennsylvania Railroad, at Hoosick Station. The improvements are a two-story frame house, with six rooms and good cellar, a frame bank barn 40 by 60 feet, and other outbuildings. There is on the place a young apple and peach orchard; one hundred and twenty acres cleared land, divided into fields of convenient size, a large portion of which are well set in clover and timothy; the residue of said tract covered with good timber. It is well watered, and underlaid with coal and limestone, and is convenient to churches, schools, stores, mills and blacksmith shops. A real good bargain is offered in this excellent farm.

ALSO, A beautifully situated tract of 60 ACRES of valuable land, under good fencing, situated in McCandless township, Allegheny county, Pa., on a township road, 7 measured miles from the Market House, Allegheny City. This tract is well adapted for a garden or dairy farm, being convenient and of easy access to either city, and near enough to the line of the Mahoning Railroad to make it very desirable for country seats, for persons doing business in the city.

ALSO, The best farm in Young township, Indiana county, Pa., 4 miles from Western Penna. R. R. at Livermore Station, containing 300 ACRES—225 acres cleared and under No. 1 fencing, as well as fine farming condition; the balance in good white oak timber. The improvements are 2 two-story frame houses, nearly new, of eight rooms each and finished basements and attics; a large bank barn 50 by 80 feet, a two-story spring house and other necessary outbuildings, all in good order; 5 acres of orchard of choice varieties of fruits; 4 feet vein of coal (now open,) underlying the whole tract, and limestone in abundance, with plenty of water of never-failing water. Taken all together—houses, fencing, soil, nice lying surface, public highway, churches, schools, mills, &c.,—I know of no more inviting and desirable tract of land in Western Pennsylvania.

ALSO, FARM AND MILLS. A small tract of 60 ACRES of very valuable land in Derry township Westmoreland county, Pa.; well fenced and in high state of cultivation, with new frame dwelling, and other outbuildings; a new grist and saw mill complete, with two runs of burrs, two bolting cloths, and all the needed fixtures, in good order, and a young orchard of choice fruits; lane is all underlaid with a six foot vein of coal, now opened and worked, at the back of the mill, and limestone in abundance. Call soon and secure a good bargain.

ALSO, FARM OF 160 ACRES, situated immediately upon the line of the Pennsylvania Railroad, at Blairsville Intersection, 54 miles east of the city. The improvements are a two-story stone house of 8 rooms, a No. 1 barn, 45 by 65 feet, the best of stabling, and other outbuildings. The land lies well, is well fenced, is in good farming order, and will be sold very cheap if applied for soon.

MEDICAL.

"MANHOOD."—Another New MEDICAL PAMPHLET, from the pen of DR. CURTIS. The *Medical Times* says of this work: "This valuable treatise on the cause and cure of premature decline, shows how health is impaired through secret abuses of youth and manhood, and how easily regained. It gives a clear synopsis of the impediments to marriage, the cause and effects of nervous debility, and the remedies therefor." A pocket edition of the above will be forwarded on receipt of 25 cents, by addressing Doctor CURTIS, No. 58 North Charles Street, Baltimore, Md.

CITY AND SUBURBAN.

Change of Carriers.

Mr. Barckley, the gentleman who delivers the GAZETTE on the east side of Federal street, Allegheny, has sold out his route to Mr. William Erb, who will collect from the first inst. Subscribers who may fail to receive their papers under the new management should promptly leave word at our counting room, so that the matter may be remedied.

The amusement season has fairly opened in Pittsburgh.

Venus is now the Morning Star. It can be seen in the east just in advance of the sun.

The Grant and Colfax Clubs in this vicinity are disbanding. Their occupation's gone.

We saw the real Grecian Bend yesterday —A hod carrier bending under a hod filled with bricks.

The individual who gave "the cream of the thing" was not a dealer in milk—at least not in these parts.

The work of laying the Nicolson pavement on Sixth street (late St. Clair) was commenced yesterday morning.

The rain yesterday cleared the streets of leisure corner-loafers. "It's an ill wind that blows nobody any good."

Those Feet.—The feet alluded to in yesterday's GAZETTE as hanging out of a box at the Opera House were not home productions, as many have supposed, but were imported articles from Philadelphia.

Fisticuffs.—Jacob Falkman and Adam Newman "encountered" each other in Geer's beer saloon, on Ohio street, Allegheny, for which they were brought before Mayor Drum yesterday morning and fined five dollars and costs.

Gave Bail.—Wm. Bramin, one of the men charged with committing highway robbery in Allegheny on Saturday night last, and committed to jail for trial, was released yesterday by giving bail for his appearance at the proper time.

Store Robbed.—Some thieves broke into the store of Mr. T. Stevens, in the Diamond, and robbed the till of a small amount of money. An entrance was effected by wrenching the hasp off from the outside door. No clue to the operators has been obtained.

Stock Sales, Tuesday evening, on second floor of Commercial Sales Rooms, 106 Smithfield street, by A. M'Ilwaine, Auctioneer:

Central Transportation (Sleeping Car Stock)	$57.00
Pacific & Atltantic Telegraph Co	20.00

Sale of Real Estate.—Capt. H. B. Smithson, the well known auctioneer of 55 and 57 Fifth avenue, sold yesterday by auction a lot of ground 40 feet front on Penn street, by 100 feet in depth to Mulbery alley, with buildings, for the sum of $17,500 cash; also, two story brick house on Mulbery alley, lot 24 by 50, for $2,000 cash. John Gates, Esq., was the purchaser.

More Thievish Depredations.—The grocery store of Mr. Moffat, on the corner of Third avenue and Grant street, was entered and robbed of fifteen or twenty dollars on Monday night. The thieves after securing their booty, departed in haste, leaving the door open leading into the street. There is no definite clue to the perpetrators, though suspicions are entertained of parties seen lurking in the neighborhood.

New Military Organization.—A military organization, under the name of the Washington Blues, has been organized in the thriving borough of McKeesport. Forty members have already been enrolled, and the company is rapidly filling up. The following officers have been chosen: Captain, James Miller; First Lieutenant, J. Sergeant; Second Lieutenant, F. Mumfrature; Orderly Sergeant, Jas. M'Clure.

Cross Suit.—Bridget Griffith made information before Alderman Strain yesterday against Eliza Lloyd for aggravated assault and battery. The prosecutor alleges that the defendant attacked her little son and beat him with a handy billy. The parties reside near the Copper Works at Soho, and this is a cross suit to another which Lloyd entered before Alderman Thomas against Bridget for assault and battery. A warrant was issued.

Real Estate Savings Bank.—It will be seen by a statement of the assets and liabilities of this institution, published elsewhere in this paper, that the deposits have swollen to nearly half a million dollars, that the aggregate assets exceed five hundred and twenty-six thousand dollars, thus showing the great confidence reposed in its management, and exhibiting also the rapid growth and vigorous health of this young and useful public institution.

Hearing in the Allegheny Riot Case.—A hearing was held in the Allegheny riot case before Mayor Drum last evening. There were five parties charged in the indictment, viz: Michael Ryan, Jerry Hawley, Jas. Sullivan, Chas. Magill and John Savage. Mr. Bothwell, the injured party, was unable to appear, owing to the inclemency of the weather. A number of witnesses were examined, and the testimony was very voluminous. Magill and Savage succeeded in clearly proving an *alibi*, and were accordingly discharged. The other three were held, and gave bail for trial in the sum of $5,000 each.

The attention of builders is directed to the large and varied stock of lumber advertised by Alexander Patterson in today's issue. His extensive yards are located in the Fifth and Sixth wards, Allegheny, on Rebecca street, opposite the gas works, and corner of Preble and Juniata streets, in what was the late borough of Manchester. Carpenters, cabinet makers, and all others, dealing in the article of lumber, can have their wants supplied by Mr. Patterson for almost any quality, size, shape and quantity, thoroughly dry, selected with the greatest care and at the lowest market prices. Special attention is directed to the article of Shingles, which he makes a speciality. Every grade and price of sawed and shaved shingles, from the lowest to the highest, can be found in his yards.

First Class Establishment.

The wholesale and retail dry goods house of Bates & Bell is, in every respect, a first class establishment. Their stock of fall dry goods, which have been purchased expressly for this market, is one of the largest ever brought to this city, and is being disposed of at remarkably reasonable prices. Persons desiring to purchase goods for fall and winter wear will find it to their advantage to call at the representative house and examine the stock before completing their purchases elsewhere. Remember the place, 21 Fifth avenue.

Impressive Services.

The funeral obsequies of the late Allen Kramer, Esq., took place at Christ M. E. Church, Penn street, yesterday morning, and were of a most solemn and impressive character. An unusually large number of friends and acquaintances assembled to pay a last tribute of respect to the deceased. The funeral rites were opened with singing and prayer by Rev. W. H. Locke, after which Rev. E. B. Snyder read a Scriptural lesson. Rev. Dr. Pershing then paid a most eloquent and touching tribute to the deceased. The services were concluded by Rev. Dr. Morgan, Pastor of the Church, and the solemn scene closed after the friends had taken leave of the body.

THE COUNTY CHRISTIAN CONVENTION.

Opening Session—The Organization—Address of Welcome—Remarks by Delegates —The Programme To-Day.

Pursuant to published call, the County Christian Convention assembled last evening in the Second Presbyterian Church, (Dr. Howard's,) corner of Penn and Irwin streets. Notwithstanding the very unpropitious state of the weather, there was quite a large attendance of delegates and friends of the Association, under whose auspices the assemblage was gathered. A platform for the convenience of the speakers and officers of the Convention had been erected around the pulpit, a portion of which was also taken up by a small melodeon which, presided over by Professor Johnson, lent additional interest to the musical exercises which interspersed the proceedings throughout. Upon the wall directly in front of the pulpit was the motto, "Christ Died For Us," surrounded with a deep border of evergreens.

The meeting was called to order at seven and a half o'clock by Mr. H. K. Porter, President of the Young Men's Christian Association of Pittsburgh, when, upon motion of Mr. J. F. Keeler, a temporary organization was effected by calling Major Wm. Frew to the Chair and appointing Rev. W. H. Locke, Secretary.

By request of the Chairman, Rev. S. F. Scovel read a portion of Scripture, which was following with prayer by Rev. W. H. Locke.

The audience then joined in singing the "Coronation" Hymn, commencing—

"All hail the power of Jesus name,
Let angels prostrate fall."

After the singing of the hymn, Major Frew delivered the following address:

MAJOR FREW'S ADDRESS.

With many thanks I assume the honors of temporary Chairman of the Christian Convention, with which you have complimented me, and congratulate you on the return of another one of these precious seasons of Christian intercourse, which have gladdened our hearts in the past years—have encouraged our hearts and contributed so largely to the promotion of Christ's kingdom. What department of Christian activity in all this region was not energized and stimulated by the memorable conference of a year ago? How many new enterprises had their origin there, and how many then in operation received a new impetus? How many dull and lifeless members of the Church of Christ were sent out from that assembly of earnest men and women with their faces shining and their hearts on fire. How many laggards in the Master's service experienced there a fresh baptism of the Holy Spirit and thenceforward have worked with the zeal and devotedness of those who realize the great responsibilities that rest upon us, to whom the truth of God's word has been committed. Let us hope that we may have the Spirit present with us as he was then; that our hearts may burn within us as they did then; that every Christian effort may be revived as it was then, and that we may go out from this Convention as did the Seventy—charged and qualified for whatever the Blessed Lord has assigned us.

The catholicity of these Conventions is one of their most delightful features. Here we know no parties, no sects, no schools, no denominations, are determined to "know nothing but Christ and Him crucified." Evangelical christians, whatever may be their minor points of difference, but holding the fundamental truths of the Bible, meet here not as Methodists, or Presbyterians, or Baptists, or Episcopalians, but as members of the Church, forgetting their denominational differences, and feeling a common Brotherhood, drawing water from the same fountain, light from the same source, and strength from the same power.

Some are not here who came up to this meeting a year ago. Their time for labor is ended, and they have entered into their rest. Some who are here perhaps attend such a Convention for the last time. It becomes us solemnly to ask, "Lord, is it I? Lord, is it I?" and to resolve that "Whatsoever our hands find to do," "we do it with our might."

It is refreshing to turn aside from the political excitement, which has just swept over our country like the Simoom, with its asperities, its heated discussions and violent harangues, to the fraternal commingling of Christian people seeking how best to promote the happiness and salvation of a lost world. Although this periodical infliction is over yet we may learn some things from even the politician. We may learn a lesson of activity, zeal and enthusiasm.

Like them we must define our position. We must fling our banner on the outer wall to show the world where we stand. We must declare "I am not ashamed of the Gospel of Christ." We must work if we would win. We must fight if we would wear the crown; and as we march on to the conquest of the enemy in solid phalanx, let us feel the touch of elbow with elbow, so forward shoulder to shoulder, heart to heart; with the spirit of the Master here let us have faith to expect great results from the meeting now inaugurated.

At the conclusion of Mr. Frew's remarks, Mr. S. P. Harbison moved that the chair appoint a committee of three on permanent organization. Carried, and Messrs. S. P. Harbison, J. E. Sellers and W. H. Strickler, appointed said committee. Mr. H. K. Porter was then introduced, and greeted the delegates with the following

ADDRESS OF WELCOME.

In the name of the young men of this community associated together in Christ, I am bidden to extend to the delegates to this convention, the word of salutation and kindly greeting. The service is one, I assure you, not of mere form, but the welcome we speak comes from the heart.

The invitation has been issued with the sincere desire that there should be a full representation of the churches of our county, and a few outside its borders, to whom we are attached by peculiar ties, that our views might be enlarged as to the work given us to do, our conceptions of its importance become more vivid, and our feeling of responsibility for its proper discharge deepened in every heart.

We greet you, therefore, as laborers toiling in different parts of the same vineyard, in the service of the same Master, with the same hopes that animate us, and the same aspirations that make all present attainments seem mean and trivial. We greet you, impressed with the belief that by mutual conference, we may all be inflamed with new zeal; that we may all become more thoroughly aroused to the need of consecrated hearts, of devout lives, and of untiring effort in our Master's work; that we may gain truer and more distinct views of the possibilities in the possession of every true child of God, and, above all, in His presence, we may learn the mind of the Lord Jesus.

The Church everywhere mourns that so much of its power is latent. It seeks to arouse and bring it into exercise, and such gatherings as this God has greatly blessed elsewhere and here, as we can all witness, to precisely this end.

We have invited you to meet together for consultation as to the interests of the Kingdom of Christ; for united prayer that He may make known His power in His church and his salvation to a sinful and a thoughtless world; and as our prayers have ascended, while our hands made ready, so now do our hearts go out in fervent petition that grace, mercy and peace from our Lord Jesus Christ may abide with us all while we remain together.

The connection of our Association with the convention has been merely preliminary. We have spoken in behalf of more than a hundred churches in our midst, and have but echoed the united voice of an earnest ministry; and now, with such preparation as we were able to make, we place it in your hands, merely asking to be with you, that we may receive of the blessed influences that we trust will be imparted.

In the list of topics presented as a guide to thought and discussion, you will see that all are of common interest.

As we know but one name, while we remain together, the name that spoken thrills every heart, the name that unites us, the blessed name of Jesus, so in these subjects, on which our thoughts are to dwell, we have only themes that should delight us for their catholicity, inspire us with zeal for their bearing on the interests of every church in its own special life and individual effort, and make us sorrowful or full of joy, as we dwell upon the little that has been accompliished in the past, or think of the glorious results that may be achieved if we put ourselves in the hands of the Great Ruler, with a thorough consecration, to be used as he shall please.

The departing Master bade His disciples of old to tarry at Jerusalem till indued with power from on high. We have no need to tarry, for the power of the Holy One is already manifested in our midst. As on the day of Pentecost the Holy Ghost was present with wondrous power, so His presence has been felt in our community in the weeks just passed; not, as then, lifting thousands in a day from death to life, but in the same quiet, yet almighty, working in individual souls. Earnest have been the cravings that He would come with each of you, and the Lord's ear is not heavy.

While we are met, then, this evening, not merely for organization, but also for conference and prayer for the presence and favor of the Holy Spirit, let every heart be quick to recognize His promptings, every hand ready to do His bidding, and may none remain rebellious or unsubdued.

At the conclusion of the address a portion of the 19th Psalm was sung, commencing

"Oh my soul bless thou Jehovah,
All within me bless his name."

Mr. S. P. Harbison, from the Committee on Permanent Organization, presented the following report:

President—Rev. S. J. Wilson, D. D.

Vice Presidents—Revs. S. F Scovel, Wm. Preston, D. D., J. S. Dickerson, D. D., E. B. Snyder, J. R. Kerr, Hon. Walter H. Lowrie, H. K. Porter, Esq.,

Secretaries—Rev. W. H. Locke, T. K. Cree, B. F. Jennings and reporters of the press.

Business Committee—Oliver McClintock, Rev. W. Beatty and E. T. Cook.

Committee on Credentials—W. N. Howard, E. P. Long and Turner Shacklett.

PRESIDENT WILSON'S ADDRESS.

Rev. Wilson, on taking the chair, returned his thanks to the Convention for the honor conferred upon him, which he accepted not without diffidence and embarrassment, when he considered the responsibilities pertaing to a proper discharge of its duties. He hoped that the proceedings throughout might move along harmoniously and smoothly, and be productive of great good in promoting the interests of the cause for the advancement of which they had assembled. He earnestly exhorted each to strive to have a proper sense of the object for which they had gathered themselves together. The object was not the defeat or triumph of any party, nor the advancement of any sectarian interest. The proceedings of the gathering would result either in the salvation or irreparable loss of many human souls. There was a tender and anxious feeling in all the churches of the vicinity, who with their pastors were watching with intense interest the proceedings of the Convention, in the earnest hope that they would be productive of lasting benefit in awakening a renewed zeal and energy in the adherents of the blessed cause. The efforts put forth would be seconded in the closet by praying mothers and fathers and friends of those who, notwithstanding all the influences by which they were surrounded, still remained unconverted. The meeting convened to-night was for the purpose of devising means and plans for the better carrying forward of the work, but though these plans were elaborated and carried out, they would be of no avail unless accompanied by the energizing influence and power of the Holy Spirit. This, he said, was what was needed in the work, and all were exhorted to concentrate their talents, and youth, and energy in the cause that it might advance with the times through the faithfulness and zeal of its exponents.

At the conclusion of Dr. Wilson's address the audience rose and sang a portion of the 10th hymn, commencing,

"Come Holy Spirit, Heavenly Dove,
With all thy quickening power."

Dr. Howard then, in a few happy and pertinent remarks, welcomed the delegates and friends of the Convention to the church in which they had assembled. It was a pleasure for him to do this, and in doing so, in behalf of the pastors and people of all the congregations in the vicinity, he desired to ask one favor of them, and that was expressed in the language of the apostle, "Brethren pray for us."

Another verse of the Coronation Hymn was then sung—

"Let every kindred, every tribe,
On this terrestial ball."

after which Mr. K. A. Burnell, delegate from Milwaukee, was introduced and made a short address. Several prayers, interspersed with the singing of hyms followed, after which, the Business Committee, through their Chairman, Oliver McClintock, presented the following

RULES FOR THE GOVERNMENT OF THE CONVENTION.

First—No delegate shall speak on any question until all who wish to speak have done so, nor more than five minutes at a time, excepting the opener of the discussion.

Second—All Resolutions shall be committed to writing before they are offered.

Third—All Resolutions shall be referred to the Business Committee without debate,

Fourth, No circulars or papers of advertisements shall be distributed during the Convention without the previous consent of the Business Committee.

The Committee also recommend the following programme of exercises for Wednesday morning:

Prayer meeting at nine o'clock in the lecture room of the Church, re-assembling at half-past nine in the auditorium for the discussion of the topic "What are the christian's opportunities to do good at home, in the church and as a member of society?" Rev. F. A. Noble to open the discussion; adjournment at a quarter of twelve o'clock to the noonday prayer meeting at the rooms of the Young Men's Christian Association, No. 23 Fifth avenue, the meeting to be led by K. A. Burnell, of Milwaukee.

The report of the Committee was adopted.

The Convention then adjourned with singing the doxology, Dr. Howard pronouncing the benediction.

In addition to the morning programme of exercises, this afternoon will be taken up with the discussion of the topic, "How can the Christian activities of the entire membership of any particular church be best organized and developed."

The topic for discussion at the evening session is, "Devotional meetings at the church, cottage prayer meetings and open air meetings."

Great Bargains in Dry Goods.

During the recent panic and depression which rested on the business men of the Eastern cities, and drove them to the necessity of sacrificing their goods to realize enough cash to bridge them over their temporary financial difficulties, Mr. Richard Deaker, the popular dry goods dealer corner of Fifth and Grant streets, secured for his patrons rare bargains in all lines of goods. Buying for cash he was enabled to obtain a prime and choice selection at prices away down below the first cost of production, and hence it is that he is now offering such a splendid line of goods to his customers at such extraordinary low prices. The corner dry goods store has ever been a popular shopping place, and with its magnificent new stock and inducing prices must prove more than ever attractive. The goods are of most desirable styles and patterns and embrace everything in the way of dress goods, shawls, sheeting, blankets, flannels, &c., and no where else will patrons obtain better selection or greater bargains.

THE FATAL ACCIDENT.

Coroner's Inquest in the Case of Catharine Monaghan—The Testimony and Verdict.

Coroner Clawson held an inquest yesterday on the body of Catharine Monaghan, the child which was killed on Gibbon street, in the Sixth ward, Monday afternoon, by being run over by a wagon, an account of which we published yesterday. The evidence, which we publish in full, does not show that Flinn, the driver, was criminally negligent, and the jury in the verdict so state. Flinn it appears was committed to jail by the Mayor by the advice of the Assistant District Attorney. He will most probably be released, however, as there is not a particle of evidence against him which would warrant his being held for trial. Following is the testimony taken at the inquest and the verdict of the jury:

Sarah McClellan, sworn.—I saw the child come off the sidewalk and attempt to cross the street and fall under the horse. She started from in front of her father's door. It was some time in the afternoon; I think it was about three o'clock. The team was going down the street; there were two horses in the wagon, and the team was going very slow; they could not go any slower. The driver was sitting on the opposite side of the wagon from which the child came; I don't think he saw the child; the horse knocked the child down, and the left front wheel of the wagon passed over its breast. It was not dead when I picked it up; I think it breathed once. The hind wheel did not pass over the child. I handed the child to the father and he carried it into the house. I think the driver got off the wagon and came to the door. There were a great many persons hallooing to the driver, but he did not seem to understand what it was for, as he appeared to be looking some distance ahead of the wagon. I was about fifty feet from the wagon when the accident occurred.

Ellen Loomis, sworn—I live four doors from the place where the accident occurred. Came to my gate to look for my little girl. The wagon which was being driven by Andrew Flinn was just opposite my house. I was looking around for my little girl, and the first thing I saw was the child under the horses' feet, and I hallooed; the next thing I saw was the child's head out from the wheel. I don't think the man knew anything of it until the child was taken out from under the wheel. There were so many calling from both sides that the driver was looking every way to see what was the matter. There were some men standing on one side of the street who might have saved the child if they had ran and caught the horses. It was a two-horse wagon, and the man was driving as slow as he possibly could. You could hardly see the wheels moving around. The wagon was loaded with coal. Mrs. McClellan took the child from under the wagon. I have heard it said that Flinn was a very careful driver and a sober, steady man.

Isabella Richardson, sworn—I live at 39 Gibbon street, opposite Monaghans; I saw the accident by which the child was killed; I heard the hallooing; the first thing I saw was the wagon on the child; I was in Monaghan's grocery at the time; I was so frightened that I do not know much about it.

Michael Dunn sworn—I live on Gibbon street; I saw the accident by which the child came to its death, was in Monaghan's door at the time; I saw two children running toward the door to get out of the way of the wagon which Flinn was driving. The was right opposite Monaghan's door; do not know whose children they were; next I saw was the child that was killed running toward the door after the others, I hallooed at the driver when the first two ran across, and when the other one come, I screamed out to him that he would kill a child. The child at that time was under the wagon. The child run right under the wheels; it came from the opposite side of the street from its father's house From the time I first saw the child and called to the driver, it would have been impossible to have stopped the wagon. I don't think the driver saw the child. I don't think anybody hallooed but me. Both wheels passed over the child.

Richard Carr, sworn.—I live on Gibson street; I saw the accident; I was in Monaghan's, and when I went to the door I saw the little child run across from the door of its father's house, in front of the horses; the horses knocked it down and stepped upon it; I did not see any more; the driver was sitting on the left hand side of the wagon.

The testimony here closed, and the jury found the following verdict:

"The jury find that the said Catharine Monaghan came to her death on Monday, November 9, on Gibbon street, by being run over by a wagon driven by Andrew Flinn. The jury do *not* believe from the testimony that the said Catharine Monaghan came to her death from criminal negligence on the part of said Flynn."

Quarter Sessions—Judge Mellon.

Court opened at the usual hour yesterday morning, Judge Mellon on the bench. The following business was transacted:

VERDICTS.

In the case of John Snyder, indicted for selling liquor on Sunday, the jury returned a verdict of not guilty, and directed that the county pay the costs.

Richard Lenhart, indicted for selling liquor on Sunday, was tried and the jury found a verdict of guilty.

JURY OUT.

The jury in the case of Andrew Sheehan, indicted for selling liquor on Sunday, is still out.

ADMITTED TO BAIL.

Andrew Flinn, charged with involuntary manslaughter by driving over the little child on Gibbon street, Monday evening, was brought into Court yesterday morning, and asked to be admitted to bail. The Court fixed the amount at four thousand dollars. The necessary security was given and he was released.

SEWICKLEY RIOT CASE.

Wm. Grimes, John Johnson, Geo. Little, Caleb Grey, Milo Scott and W. J. Backhouse, were arraigned on an indictment charging them with riot. The parties are all residents of Sewickley, and are charged with participating in the attack on several drinking places in the borough, and assisting in the destruction of two or three barrels of "cider whisky." The case excites considerable interest, and will probably occupy the attention of the Court for some time. Messrs. White and Slagle and John M. Kirkpatrick, Esq., appear for the defendants, and W. D. Moore, M. Swartzwelder and W. C. Moreland, Esqs., with District Attorney Duff, for the prosecution.

During the cross-examination of Mr. Hackett the hour of three P. M. arrived, when the jury were dismissed by the Court with instructions to resume their places at ten o'clock this morning.

THE FASHIONS.

BY CONNY O'RYAN.

In times like these, when style's the rage,
Decreed by fashion's potent sway;
When all, of every grade and age,
Stalk blindly on fu custom's way;

How oft in walking on the street,
Incongruous sights the eye will note,
Of contours fine, though incomplete,
With vulgar pants or bob-tailed coat.

In suits made of the best of cloth,
Each gentleman or foppish brat
Proclaims himself, of style, the broth,
Yet wears a jaded, seedy hat—

As if to dress within the style,
You only need the tailor's aid,
When much depends upon the "tile,"
And how 'tis worn upon the head.

No man is dress'd, I will insist,
Without the hat 's conformity,
While from a suit, the simplest,
It robs all gross deformity.

The ladi s now, as fall draws on,
Begin to doff their summer gear,
And woolen wear replaces lawn,
Betokening the waning year;

While hoods and muffs and victorines,
Succeed point-lace and parasols,
And Misses merging from their teens,
Prepare to make their autumn calls.

Now anxious gyrists 'long the day,
To revolute the slip'ry sheen,
Wrapped well in Mink or Hudson Bay,
To brunt Hesperia's blasts so keen.

And mothers, to the school-house hie,
Amid the snow and o'er its crest,
Their prided girl or petted boy,
Attired in his winter's best.

It's timely then that all should know,
Where hats and furs may both be had,
To fit each one, for frost and snow,
In colors gay, or sable sad.

For two decades, and five long years,
Has Fleming's store all storms withstood,
Supplying furs to warm the ears
Of thousands, and is still on Wood.

His wholesale part is crammed with furs,
The first floor hats and caps contain,
In eastern prices he concurs,
And of his styles none will complain.

Siberian squirrel and mink Eugenies
Hudson Bay, and sable muffs,
As handsome as the Cestus Venus,
With boas, berthas, collars, cuffs.

He's hats and caps with prices down,
And styles as varied as the weather;
Some high, some low, some flat, some round,
And some as light as any feather.

At a hundred and thirty-nine, on Wood,
Grown gray in business there, you'll find
A man that's fair, and furs that's good,
With grades and prices to each mind.

Mr. Fleming has so systematized his business in each department—has such elaborate facilities for supplying both wholesale and retail trade, and such an extensive custom, that he can sell goods much lower than old fogy, or smaller houses, and frequently as low as such houses pay for similar articles buying on a small scale, and while those houses are complaining of dull times, scarcity of money, &c. This great representative hat, cap, and ladies' fur establishment is constantly thronged with customers, in both its wholesale and retail departments, who fully appreciate the fact that they save from fifteen to twenty-five per cent. on their purchases at this house, and at the same time, get fresh and neatly made goods, of better materials and newer and more desirable styles than can be had at houses where they are unwilling to sell unless they can obtain large profits for inferior goods.

One particular feature in Mr. Fleming's manner of doing business is, he never allows a salesman to make a misrepresentation to effect a sale, and never sells a second class, or inferior article as first class, or at first-class prices.

At Semples'.

At the extensive and popular dry goods house of William Semple, Nos. 180 and 182 Federal street, Allegheny, the reader will find a splendid stock of new goods, which are offered at very reasonable prices. For dress goods, shawls, blankets, housekeeping goods, cloths, cassimeres, sheetings, yarns, hosiery, balmorals, etc., etc., the purchaser can find no better place to purchase than at Semples'. During the recent depression in the eastern markets, Mr. Semple secured great bargains which he is now sharing with his numerous patrons in the way of offering decided advantages in low prices.

The election of Grant has in no way affected the price or quality of those excellent trunks manufactured by Joseph Leibler, No, 104 Wood street.

The Diamond Front.

It will be to the advantage of housekeepers and the public generally to call at the original Diamond Front Grocery Store, No. 164 Federal street, Allegheny, if they desire to purchase a first class article of groceries, teas, coffees, spices, etc. Mr. Henderson George, the gentlemanly proprietor, is one of the leading business men in the two cities, and by fair and honest dealing and keeping only a first class article of goods, has built up an immense trade. Parties who deal with him once seldom have occasion to go to any other establishment.

Col. J. D. Eagan has on hand a large and well selected collection of new and valuable books from private libraries. Also Sabbath School library books, which he is selling at half price.

A new and large stock of elegant stationery, which will be sold at a small advance on manufacturer's prices to retail dealers.

Books new and second-hand in large or small quantities, bought for cash or sold on commission, No. 46, Sixth avenue, near Smithfield street.

Continental.—By the heading of this article we have no reference to "Continental money," but to the first class Dining Saloon of that name, located on Fifth avenue, near the Postoffice, and under the supervision of that prince of caterers Holtzheimer. Every delicacy of the season will be served in the highest style of the culinary art, and at reasonable rates. Those desiring a good, square, clean meal can always be accommodated at the Continental.

Chapped Hands, face and all roughness of the skin, certainly cured by using the *Juniper Tar Soap*, made by Caswell, Hazard & Co., New York. It surpasses all other remedies as it will prevent roughness of the skin if used during cold weather. It is easily applied, avoiding all the trouble of the greasy compounds now in use. It can be used by ladies with the most tender skin, without irritation or pain, making it soft and clear. Sold by the druggists generally. wT

Cloaks, Cloths, Cassimers, &c.—Assignee Sale.—This, Wednesday afternoon, at two o'clock, at Masonic Hall Auction Rooms, 55 and 57 Fifth street, will be sold without reserve about fifty new cloaks, sacques and circulars; also dress goods, shawls, &c. At ten o'clock in the morning, notions, trimmings, sundries, &c. At seven o'clock in the evening, clothing, boots, shoes, doeskins, mittens, satinets, tweeds, jeans, cassimers, and cloths. See advertisement of H. B. Smithson & Co., auctioneers.

Chandaliers.—The first stock of oil and gas chandaliers to be found in this city is held at the wholesale and retail house of Messrs. Weldon & Kelly, corner of Wood street and Virgin alley. The stock embraces all the newest and prettiest styles, cheap or expensive, and will commend itself to those wanting anything in the line.

Deafness, Blindness, Catarrh,

And all affections of the Throat, Lungs, Heart, Stomach, Liver and Nervous System, treated successfully at Dr. Aborn's Medical and Surgical Institute, No. 134 Smithfield street. tf.

Peremptory Assignees Sale—Of a country store, at Masonic Hall Auction Rooms, 55 and 57 Fifth avenue, this morning at ten, afternoon at two, and evening at seven o'clock. See advertisement of H. B. Smithson & Co., auctioneers.

Holtzheimer is always ready to furnish his customers with first class meals, either day or night, at the most reasonable prices. His dining rooms are one door below the Postoffice, on Fifth avenue.

A large and well selected stock of lace goods, embroideries and furnishing goods are now offered by W. W. Moorhead, at No. 81 Market street, at the most reasonable prices.

W. W. Moorhead's stock of hosiery, at 81 Market street, is one of the largest and most complete in the city. His stock of trimmings is generally admired by the ladies.

The place to get White Lime, Calcined Plaster, Hydraulic Cement, is at Ecker & Caskey's, 167 First street.
